 2019 Easily the most important book to be published this century I find it hard to take any young activist seriously who hasn't
 at least familiarised themselves with Zuboff's central ideas Zadie Smith The Guardian The challenges to humanity posed by
 the digital future the first detailed examination of the unprecedented form of power called surveillance capitalism and the
 quest by powerful corporations to predict and control us The heady optimism of the Internet's early days is gone
 Technologies that were meant to liberate us have deepened inequality and stoked divisions Tech companies gather our
 information online and sell it to the highest bidder whether government or retailer Profits now depend not only on predicting
 our behaviour but modifying it too How will this fusion of capitalism and the digital shape our values and define our future
 Shoshana Zuboff shows that we are at a crossroads We still have the power to decide what kind of world we want to live in
 and what we decide now will shape the rest of the century Our choices allow technology to enrich the few and impoverish the
 many or harness it and distribute its benefits The Age of Surveillance Capitalism is a deeply reasoned examination of the
 threat of unprecedented power free from democratic oversight As it explores this new capitalism's impact on society politics
 business and technology it exposes the struggles that will decide both the next chapter of capitalism and the meaning of
 information civilization Most critically it shows how we can protect ourselves and our communities and ensure we are the
 masters of the digital rather than its slaves *The Times Index*, 2013-02 Indexes the Times Sunday times and magazine
