These nurses aid determine the stage of care a man or woman needs and publications a kingdom of affairs to resolution. Telephone Triage Nurses are distinctly really helpful to victims that do now no longer have a predominant care medical doctor or continue to be in a very far off place of the country. Telephone Triage Nurses are professionals to ask very specific questions to exactly figure out their scenario and determine the stage of care desired and how quickly.      *The Lippincott Manual of Nursing Practice* Sandra M. Nettina, 2001 In addition to comprehensive coverage of the four areas of nursing medical surgical maternal newborn pediatrics and psychiatric mental health the Seventh Edition of this classic reference book features a variety of useful updates. New to this edition is an appendix of vitamins and herbs necessary for dealing with patients who treat themselves with popular dietary supplements. Also unique to this edition are an increased emphasis on home care drug alerts standards of care and additional patient teaching information that includes complementary therapies. Popular features including procedure guidelines nursing alerts and gerontologic alerts have been expanded. New illustrations appear throughout.      **Telephone Triage Protocols for Nurses** Julie K. Briggs, 2007 This quick reference manual presents over 200 triage protocols for evaluating patients symptoms over the telephone. Each symptom entry lists questions grouped by urgency level to determine whether the caller should seek emergency care now seek medical care the same day call back for appointment or follow home care instructions. Detailed home care instructions are then provided. This edition features fourteen new protocols avian influenza bird flu congestive heart failure electrical burns hand wrist problems hip pain injury influenza neurological symptoms newborn problems pertussis severe acute respiratory syndrome SARS sickle cell disease problems substance abuse use or exposure West Nile virus and wound care sutures or staples. New appendices include guidelines for scenario practice difficult caller practice scenarios mystery caller practice session temperature conversion guide weight conversion chart acetaminophen dosage chart ibuprofen dosage chart infant feeding guide abdominal pain causes and characteristics chest pain causes and characteristics and headache causes and characteristics.      *Emergency and Trauma Care for Nurses and Paramedics* Kate Curtis, Clair Ramsden, 2011-08-15

Emergency and Trauma Care is written for Australian emergency care providers including paramedics emergency nurses pre hospital care providers nurse practitioners general practice nurses and allied health practitioners including occupational therapists and physiotherapists who are caring for trauma patients.
