Nursing Case Study

1. Health History

The subject of my case study is W. R. W.R. is a 75 year old white male who was admitted to Mercy Care Hospital on November 21, 2012. Prior to being admitted to the hospital, Mr. R. had been in excellent health. His condition apparently began three weeks prior to being admitted. On November 21, W. R. 's son found him lying on the floor motionless and unable to move.

Mr. R. was diagnosed as having an acute cerebral vascular accident. This disorder can also be described as a "stroke". It occurs when there is an interruption of normal blood flow to one or more of the blood vessels that supply the brain. Thrombosis, embolism, and hemorrhage are the primary causes of a CVA. (Flemmons and Johnson 2002) The causes of the brain damage include; leading to hypoxia or trauma with destruction or damage of the neurons, glia, and vasculature. Complications of CVA include; unstable blood pressure, memory and motor impairment, infections, pneumonia, constipation, and pulmonary edema. CVA is the third leading cause of death in the United States and affects over 500,000 Americans annually. (Flemmons and Johnson 2002).

He was admitted to October of 2011, one daughter has coronary artery disease, one son died of an MI at age 57, and one son died with lung cancer at 57. He had been the primary care giver of his daughter until she was admitted to the hospital three weeks ago. She is dying with a chronic bowel syndrome and confusion and is now being taken care of in hospice. Since after being left alone, Mr. R.'s appetite decreased and he had become confused. He was placed on Zoloft to treat symptoms of depression. He had also been taking Opan to repress pain. After his family noticed that he was suffering from confusion. As a result, they brought him into the Emergency Room for evaluation. The Emergency Room doctors

Nursing Case Studies Donna J. Bowles, 2011-02-24 Designated a Doody's Core Title This is an excellent teaching guide and resource manual for instructors gerontological nursing students and practicing nurses and social workers who wish to learn more about geriatric concerns and care It will be kept by nursing students long after they graduate as a guide to resources that will be valuable throughout their nursing careers As a home care nurse working mainly with the geriatric community I found the resources helpful in my practice As an instructor I found the book to be a very useful guide for teaching geriatrics

Score 90 4 Stars Doody's Medical Reviews Donna Bowles's *Gerontology Nursing Case Studies* is a unique volume that effectively addresses the lack of gerontology case studies for use with undergraduate nursing students. Case studies are a pedagogically powerful approach to active learning that offer opportunities to apply content to clinical practice. The *Gerontologist* The case narrative approach of this book promotes active learning that is more meaningful to students and practicing nurses and more likely to increase the transfer of evidence into practice. An excellent resource for faculty, staff, educators to facilitate critical learning skills. Liz Capezuti, PhD, RN, FAAN, Dr. John W. Rowe, Professor in Successful Aging, Co-Director, Hartford Institute for Geriatric Nursing, New York University College of Nursing. This is a terrific text that provides nurses and other health care providers with good basic information about clinical problems and challenges we face in providing care to older adults. It should be considered required reading in all undergraduate programs. From the foreword by Barbara Resnick, PhD, CRNP, FAAN, FAANP, Professor, University of Maryland School of Nursing. Sonya Ziporkin Gershowitz, Chair in Gerontology. At the heart of this unique volume are 100 case studies of older adults that address nearly every issue physical, mental, and psychosocial that may confront health care providers who work with the aging population. These case studies, culled from contributors with several centuries worth of combined nursing expertise, are designed to guide nursing students in the development of interventions that encompass both complementary and alternative health strategies. Exercises interspersed throughout each case study are designed to foster critical thinking and decision making skills. These case narratives provide a holistic approach to problem solving in regard to political, ethical, and legal issues; loss and end-of-life issues; elder abuse; depression; addiction; and suicide; self-esteem; and family relationships; sexuality; age-related health issues; cognitive impairment; cultural diversity as it relates to aging; pain management; and sleep disturbances. The volume also addresses such contemporary psychosocial issues as gambling, addiction, hoarding, behavior, emergency preparedness, the aging driver, and long-distance caregiving. Key Features: Provides 100 evidence-based case studies; Cultivates development of critical thinking and decision making skills; Features realistic, contemporary scenarios; Designed for use across the gerontology nursing curriculum; Geared for AACN and NLN Accreditation; Organized according to the needs of actual clinical settings.

Case Study Series: Clinical Pharmacy Services in a Community Hospital National Center for Health Services Research and Development, 1972 *Case Studies in Gerontological Nursing for the Advanced Practice Nurse* Meredith Wallace Kazer, Leslie Neal-Boylan, 2012-02-08 As the fastest growing population sector worldwide, older adults are seen in almost every care setting in which clinicians practice. Developed as a resource for advanced practice nurses in any setting, *Case Studies in Gerontological Nursing for the Advanced Practice Nurse* presents readers with a range of both typical and atypical cases from real clinical scenarios. The book is organized into six units covering cases related to ageism, common health challenges, health promotion, environments of care, cognitive and psychological issues, and issues relating to aging and independence. Each case follows a similar format including the patient's presentation, critical thinking questions and a

thorough discussion of the case resolution through which students and clinicians can enhance their clinical reasoning skills
Designed to promote geriatric clinical education through self assessment or classroom use Case Studies in Gerontological Nursing for the Advanced Practice Nurse is a key resource for all those dedicated to improving care for older adults
