Nursing Education In The Clinical Setting:

Nursing Education in the Clinical Setting Roberta J. Emerson, 2006-09-19 2007 AJN Book of the Year Award Winner
Nursing Education in the Clinical Setting provides a practical approach to clinical nursing instruction. Although grounded in adult learning theory, this unique resource provides practical suggestions and addresses common questions and issues. The text incorporates illustrative scenarios, discussion questions, and reflection exercises designed to facilitate thoughtful application of the content. Addresses the role transition for a nurse with clinical expertise to that of clinical nursing instructor. Provides important tips for effectively appraising student performance such as student involvement in self evaluation and goal setting, and suggestions for how evaluation and appraisal are shared with the student. Incorporates sample scenarios to illustrate concepts and allow the reader to apply them. Integrates discussion questions and exercises designed to facilitate thoughtful application and critical thinking skills. Addresses all aspects of learning including cognitive e.g. critical thinking, affective e.g. caring, and psychomotor e.g. technical skills. Provides actual examples of tools to be used for documenting student performance and approaches for stimulating student involvement and critical thinking. Includes a separate chapter on Clinical Faculty as Clinical Coach that discusses how learning is facilitated in the clinical setting with the guidance of an effective teacher. Features a Clinical Toolbox that contains a variety of supplemental resources including sample approaches for teaching and evaluation, suggestions for preparing anecdotal notes and relevant reference material. Incorporates issues related to computer access of patient data banks for students and the federal regulations mandated by HIPAA and their clinical education implications.

Nursing Education Challenges in the 21st Century Leana E. Callara, Leana R. Callara, 2008
Nursing education is facing a massive set of obstacles as the fields of medicine continues to progress at warp speed at the same time hospitals do not have enough doctors and depend more on nurses than anytime before. The result is overworked nurses running to keep up with the fields in which they must work. This book presents some analyses of nursing education at a critical juncture in the field.

Clinical Nurse Educator Competencies Teresa

Shellenbarger,2018-03-08 Excellence in clinical nursing education is essential in training today's nursing students. The first resource of its kind to address this specialized area of expertise Clinical Nurse Educator Competencies equips educators with a mastery of the evidence based competencies and tasks needed to confidently guide students through learning experiences in clinical settings and to produce competent nurses ready for practice. Detailed analysis of each competency synthesizes relevant literature and reflects the insight of the NLN Task Group on Clinical Nurse Educators providing an authoritative framework to help educators prepare students for the rigors of clinical nursing practice in today's changing healthcare environment. This synthesis and validation of academic clinical nurse educator competencies defines a scope of practice for the role of the academic clinical nurse educator. The results provide a standard of excellence central to the performance expectations associated with this specialized role.

CLINICAL TEACHING IN CRITICAL CARE

SETTINGS Challenges & Solutions Sameh Elhabashy,2018-12-24

In nursing education the classroom and clinical environments are linked because nurses must apply in clinical practice what they have learned in the classroom and through other experience. Clinical teaching is a main part of nursing education. Excellent clinical teaching is a skill that can be studied, refined and continuously improved. Teaching in the Intensive Care Unit (ICU) comes with unique challenges given the medical complexity of the patients. Identifying challenges of nurses in the clinical teaching environment could improve training and enhance the quality of its planning and promotion of the nurses. Also, this book provides a certain solution strategies and plan of management to overcome these challenges. The book utilized different experiences from multiple perspectives in addition to present the latest evidence on ICU clinical teaching and incorporates practical tips and examples.
