## **Nuts And Bolts For The Social Sciences:**

**Explaining Social Behavior** Jon Elster, 2007-04-30 This book is an expanded and revised edition of the author's critically acclaimed volume *Nuts and Bolts for the Social Sciences*. In twenty six succinct chapters Jon Elster provides an account of the nature of explanation in the social sciences. He offers an overview of key explanatory mechanisms in the social sciences relying on hundreds of examples and drawing on a large variety of sources: psychology, behavioral economics, biology, political science, historical writings, philosophy and fiction. Written in accessible and jargon free language, Elster aims at accuracy and clarity while eschewing formal models. In a provocative conclusion, Elster defends the centrality of qualitative social sciences in a two front war against soft literary and hard mathematical forms of obscurantism. *Nuts and Bolts for the Social Sciences* Jon Elster, 1990 *Nuts and Bolts* Jon Elster, 1989 **Repression and Mobilization** Christian

**Theory and Methods in Political Science** David Marsh, Gerry Stoker, 2010-02-03 The systematically revised third edition of the leading text on approaches and methods in political science features a considerable internationalization in both the team of contributors and the range of coverage and examples. About half the chapters are entirely new and the rest are substantially revised and updated. **The Social Engagement of Social Science, Volume 3** Eric Trist, Hugh Murray, Frederick Edmund Emery, 1990 World War II brought together a group of psychiatrists and clinical and social psychologists in the British Army who developed a number of radical action oriented organizational innovations in social psychiatry. They became known as the Tavistock Group since the core members had been at the pre war Tavistock Clinic. At the post war Tavistock Institute of Human Relations they developed a pioneering mode of relating theory and practice called in these volumes *The Social Engagement of Social Science*. perspectives the socio psychological Volume I 1990 and the socio technical Volume II 1993 The latest volume on the socio ecological perspective completes the set The socio ecological perspective is concerned with the coevolution of systems and their environments It considers the broader environment which shapes not only the task environments of socio technical organizations but the institutional and cultural environment that confronts the individual Volume III focuses on nonhierarchical forms of organization facilitating inter organizational relations in complex and rapidly changing environments This perspective provides a guide to institution building for the future **Journal of Economic Behavior & Organization** ,1991 Explaining Social Behavior Jon Elster,2015-07-28 In this new edition of his critically acclaimed book Jon Elster examines the nature of social behavior proposing choice as the central concept of the social sciences Extensively revised throughout the book offers an overview of key explanatory mechanisms drawing on many case studies and experiments to explore the nature of explanation in the social sciences an analysis of the mental states beliefs desires and emotions that are precursors to action a systematic comparison of rational choice models of behavior with alternative accounts and a review of mechanisms of social interaction ranging from strategic behavior to collective decision making A wholly new chapter includes an exploration of classical moralists and Proust in charting mental mechanisms operating behind the back of the agent and a new conclusion points to the pitfalls and fallacies in current ways of doing social science proposing guidelines for more modest and more robust procedures Human Rights, Culture and the Rule of Law Jessica Almquist,2005-09-12 This new book examines the relationship between culture and respect for human rights It departs from the oft made assumption that culture is closely linked to ideas about community Instead it reveals culture as a quality possessed by the individual with a serious impact on her ability to enjoy the rights and freedoms as recognised in international human rights law in meaningful and effective ways This understanding redirects attention towards a range of issues that have long been marginalised but which warrant a central place in human rights research and on the international human rights agenda Special attention is given to the circumstances induced by cultural differences between people and the laws by which they are expected to live The circumstances are created by differing tools know how and skills cultural equipment diverse settlements on matters that are ultimately indifferent from the standpoint of cosmopolitan moral law adiaphora and conflicts having their source in conflicting doctrines ethical religious and philosophical addressing deep questions about the ultimate purpose of human life comprehensive doctrines Each of the circumstances shifts the focus with the aim of securing effective and adequate protection of individual freedom as societies become increasingly diversified in cultural terms and issues arise of access to laws and public institutions exemption from legal obligations for reasons of conscience fair resolution of conflicts having their source in differing ethical religious and philosophical outlooks and excuse for breach of law in case of involuntary ignorance Journal of Economic Literature ,2007 Paperbound Books in Print ,1991 **Sociological Abstracts** Leo P.
