All static and mobile equipment is suitably planned and picked for the correct usage for example JCB or digger to dig a hole. All hand tools are picked in accordance with company procedures and met to a standard that all users will carry out a pre-use inspection and use correctly by the user and not modified in anyway. Supervisor does random checks of hand tools to check this is happening. All equipment is pre-use checked by the user or operator for any defects, if defects are found they are directly reported to the supervisor and the equipment or plant not used until further notice.
