Nyc Doe Summer School 2013:

Community Engagement in Higher Education W. James Jacob, Stewart E. Sutin, John C. Weidman, John L. Yeager, 2015-06-17 There seems to be renewed interest in having universities and other higher education institutions engage with their communities at the local national and international levels But what is community engagement Even if this interest is genuine and widespread there are many different concepts of community service outreach and engagement The wide range of activity encompassed by community engagement suggests that a precise definition of the community mission is difficult and organizing and coordinating such activities is a complex task This edited volume includes 18 chapters that explore conceptual understandings of community engagement and higher education reforms and initiatives intended to foster it Contributors provide empirical research findings including several case study examples that respond to the following higher education community engagement issues What is the community and what does it need and expect from higher education institutions Is community engagement a mission of all types of higher education institutions or should it be the mission of specific institutions such as regional or metropolitan universities technical universities community colleges or indigenous institutions while other institutions such as major research universities should concentrate on national and global research agendas and on educating internationally competent researchers and professionals How can a university be global and at the same time locally relevant Is it or should it be left to the institutions to determine the scope and mode of their community engagement or is a state mandate preferable and feasible If community engagement or community service are mandatory what are the consequences of not complying with the mandate How effective are policy mandates and university engagement for regional and local economic development What are the principal features and relationships of regionally engaged universities Is community engagement to be left to faculty members and students who are particularly socially engaged and locally embedded or is it or should it be made mandatory for both faculty and students How can community engagement be better integrated with the other two traditional missions of the university research and teaching Cover image The Towering Four fold Mission of Higher Education by Natalie Jacob [Ready for Fall? Near-Term Effects of Voluntary Summer Learning Programs on Low-Income Students' Learning Opportunities and Outcomes](#) Jennifer Sloan McCombs, John F. Pane, Catherine H. Augustine, Heather L. Schwartz, Paco Martorell, Laura Zakaras, 2014-12-16 The Wallace Foundation s National Summer Learning Study conducted by RAND and launched in 2011 offers the first assessment of district run voluntary summer programs over the short and long run This report the second of five that will result from the study looks at how summer programs affected student performance on math reading and social and emotional assessments in fall 2013 *Classroom Cultures* Michelle G. Knight-Manuel, Joanne E. Marciano, 2019 This practical resource will assist secondary educators in creating equitable schooling environments for racially diverse youth The authors identify key aspects of successful strategies and offer recommendations for tackling the many challenges of implementing effective school change

Chapters include vignettes and questions to help readers reflect on their own experiences and perspectives *The Knowledge Gap* Natalie Wexler, 2019-08-06 Essential reading for teachers education administrators and policymakers alike
STARRED Library Journal The untold story of the root cause of America's education crisis It was only after years within the education reform movement that Natalie Wexler stumbled across a hidden explanation for our country's frustrating lack of progress when it comes to providing every child with a quality education The problem wasn't one of the usual scapegoats lazy teachers shoddy facilities lack of accountability It was something no one was talking about the elementary school curriculum's intense focus on decontextualized reading comprehension skills at the expense of actual knowledge In the tradition of Dale Russakoff's *The Prize* and Dana Goldstein's *The Teacher Wars* Wexler brings together history research and compelling characters to pull back the curtain on this fundamental flaw in our education system one that fellow reformers journalists and policymakers have long overlooked and of which the general public including many parents remains unaware But *The Knowledge Gap* isn't just a story of what schools have gotten so wrong it also follows innovative educators who are in the process of shedding their deeply ingrained habits and describes the rewards that have come along students who are not only excited to learn but are also acquiring the knowledge and vocabulary that will enable them to succeed If we truly want to fix our education system and unlock the potential of our neediest children we have no choice but to pay attention

Thinking and Acting Systemically Alan Daly, Kara Finnigan, 2016-05-19 This volume argues that districts are important as a lever for change given the limited success of school by school efforts Policies that focus on skill development recognize and support performance create opportunities for collaboration build leader capacity and create networks of knowledge sharing hold great potential for improving districts but it will require a paradigm shift in the way we view our public school system and those who work within it away from blame and toward complex systems change **Vogue**, 1951 *The New York Times Index*, 1985 **The Continuing Study of Newspaper Reading** Advertising Research Foundation, 1946
