Lethal Force and New Zealand Police Richard S. Shortt, 2022-08-22 This book challenges the notion that the New Zealand Police are one of only four global police services that does not have routinely armed officers using arguments and facts drawn from 2000 to 2019 a period of important change for the organisation and its relationship with firearms particularly following the outrages of the Christchurch mosques terrorist massacres in 2019 and the 2020 shooting death of a young police constable in Aotearoa New Zealand This book provides a brief history of the Police from its beginnings to the present day with a specific focus on its relationship with firearms which contextualize the law that justifies use of lethal force in a country that has abolished the death penalty It examines police policies procedures training and structures governing deployment and use of firearms in Aotearoa New Zealand and the independent oversight that now applies to fatal and non fatal shootings by Police Using 43 publicly released oversight agency reports and data directly related to police shootings such as who is being shot this book investigates how the police are using lethal force who is being affected and what this might mean for the service with regards to the operational deployment of firearms and the potential for use of lethal force within the community into the future Directory of Official Information ,2005 **Document Retrieval Index** ,1976

New Zealand Handbook of Civil Liberties Tim McBride, 1973 The History of Policing in New Zealand: Policing the colonial frontier Richard S. Hill, 1986 **New Zealand Civil Rights Handbook** Tim McBride, 1980 **Confidential Informants** Jon Shane, 2015-09-19 While confidential informants CI s can play a crucial role in police investigations they also have the potential to cause great harm if they are dishonest The process by which police agencies qualify a CI to work and the strength of agency policy may be the source of the problem This Brief examines the integrity problem involving CIs in police operations within the United States provides an overview of pitfalls and problems related to veracity and informant integrity including the difficulties in detecting when a CI is lying and compares the provisions of actual published police policy to the model CI policy published by the International Association of Chiefs of Police IACP The analysis shows a wide divergence between actual police policy and the national standard promulgated by the IACP The Brief provides policy recommendations for improving use of CIs that can potentially reduce or eliminate integrity problems that can lead to organizational accidents such as wrongful arrests and convictions injuries or deaths Some Courts have issued measures to ensure that information received from CIs is reliable by examining sworn testimony and documents related to their work However as this Brief explores this judicial effort arises only after a police operation has taken place and the use of force even deadly force has already been employed The author proposes integrity testing beforehand which would allow police to have a greater understanding of a CI s motivation ability and veracity when conducting law enforcement operations In addition there are aspects of police policy that can enhance CI management such as training supervision and entrapment that can further guard against integrity problems Although integrity testing is not flawless it does interpose an additional

step in the CI management process that can help guard against wrongful conviction and perjury that harms the judicial process
