## Oase 64 Landscape And Mass Tourism:

**Coastal Architectures and Politics of Tourism** Sibel Bozdoğan, Panayiota Pyla, Petros Phokaides, 2022-07-29 This volume offers a critical and complicated picture of how leisure tourism connected the world after the World War II transforming coastal lands traditional societies and national economies in new ways The 21 chapters in this book analyze selected case studies of architectures and landscapes around the world contextualizing them within economic geographies of national development the geopolitics of the Cold War the legacies of colonialism and the international dynamics of decolonization Postwar leisure tourism evokes a rich array of architectural spaces and altered coastal landscapes which is explored in this collection through discussions of tourism developments in the Mediterranean littoral such as Greece Turkey and southern France as well as compelling analyses of Soviet bloc seaside resorts along the Black Sea and Baltic coasts and in beachscapes and tourism architectures of western and eastern hemispheres from Southern California to Sri Lanka South Korea and Egypt This collection makes a compelling argument that leisuresscapes far from being supra ideological and apolitical spatial expressions of modernization development and progress have often concealed histories of conflict violence social inequalities and environmental degradation It will be of interest to architectural and urban historians architects and planners as well as urban geographers economic and environmental historians
