**Contemporary Ob/gyn**, 1991    *The Standard Periodical Directory*, 2001    **The Journal of the Florida Medical Association** Florida Medical Association, 1996    Medicare and Medicaid Guide, 1969    **Where Does It Hurt?** Jonathan Bush, Stephen

Baker, 2014-05-15 A bold new remedy for the sprawling and wasteful health care industry Where else but the doctor s office do you have to fill out a form on a clipboard Have you noticed that hospital bills are almost unintelligible except for the absurdly high dollar amount Why is it that technology in other industries drives prices down but in health care it s the reverse And why in health care is the customer so often treated as a mere bystander and an ignorant one at that The same American medical establishment that saves lives and performs wondrous miracles is also a 2.7 trillion industry in deep dysfunction And now with the Affordable Care Act Obamacare it is called on to extend full benefits to tens of millions of newly insured You might think that this would leave us with a bleak choice either to devote more of our national budget to health care or to make do with less of it But there s another path In this provocative book Jonathan Bush cofounder and CEO of athenahealth calls for a revolution in health care to give customers more choices freedom power and information and at far lower prices With humor and a tell it like it is style he picks up insights and ideas from his days as an ambulance driver in New Orleans an army medic and an entrepreneur launching a birthing start up in San Diego In struggling to save that failing business Bush s team created a software program that eventually became athenahealth a cloud based services company that handles electronic medical records billing and patient communications for more than fifty thousand medical providers nationwide Bush calls for disruption of the status quo through new business models new payment models and new technologies that give patients more control of their care and enhance the physicianpatient experience He shows how this is already happening From birthing centers in Florida to urgent care centers in West Virginia upstarts are disrupting health care by focusing on efficiency innovation and customer service Bush offers a vision and plan for change while bringing a

breakthrough perspective to the debates surrounding Obamacare You ll learn how Well intended government regulations prop up overpriced incumbents and slow the pace of innovation Focused profit driven disrupters are chipping away at the dominance of hospitals by offering routine procedures at lower cost Scrappy digital start ups are equipping providers and patients with new apps and technologies to access medical data and take control of care Making informed choices about the care we receive and pay for will enable a more humane and satisfying health care system to emerge Bush s plan calls for Americans not only to demand more from providers but also to accept more responsibility for our health to weigh risks and make hard choices in short to take back control of an industry that is central to our lives and our economy **OB/GYN**
