## **Obama Zombies How The Liberal Machine Brainwashed My Generation:**

*Liberty Means Freedom for All* Steven H. Propp, 2012-11-16 Thomas Anderson has just graduated from CSU Stentoria with his degree in Political Science. It's an election year and as a young progressive in California who has been raised by equally progressive parents, he is very much concerned with the political issues currently being discussed in the mass media. A chance encounter with a fellow graduate named Kelly Kelso however shakes up his settled view of the world. He is challenged to examine the rising number of alternatives to the two-party system presented by third-party movements such as the Libertarian Party and the Green Party and is forced to acknowledge that there is far more to politics than simply Democrat versus Republican and liberal versus conservative. Thomas delves energetically into not only the growing Libertarian movement but the free market perspective of the Austrian School of economics as well as the rigid yet compelling view of Ayn Rand's philosophy of Objectivism. His explorations grow wider now encompassing the Tea Party movement and the Christian Right, tax resisters and gun rights advocates, survivalists and militia members, anarchists, communists and Democratic Socialists as well as the Occupy Wall Street movement. He debates the radical environmental views of animal welfare and animal rights advocates and challenges opponents of corporate globalism as well as deniers of global warming as he struggles to reformulate and articulate his own developing beliefs while coping with a sea of conflicting ideas and opposition. But this abstract political theory is brought into sharp encounter with concrete political reality when Thomas hears a news report of an armed conflict with authorities taking place just outside of town involving someone with whom he has become emotionally involved.

**Horror Noire** Robin R. Means Coleman, 2013-03-01 From King Kong to Candyman the

boundary pushing genre of the horror film has always been a site for provocative explorations of race in American popular culture. In *Horror Noire: Blacks in American Horror Films from 1890's to Present* Robin R. Means Coleman traces the history of notable characterizations of blackness in horror cinema and examines key levels of black participation on screen and behind the camera. She argues that horror offers a representational space for black people to challenge the more negative or racist images seen in other media outlets and to portray greater diversity within the concept of blackness itself. *Horror Noire* presents a unique social history of blacks in America through changing images in horror films. Throughout the text the reader is encouraged to unpack the genre's racialized imagery as well as the narratives that make up popular culture's commentary on race. Offering a comprehensive chronological survey of the genre this book addresses a full range of black horror films including mainstream Hollywood fare as well as art house films, Blaxploitation films, direct-to-DVD films and the emerging U.S. hip hop culture inspired Nigerian Nollywood Black horror films. *Horror Noire* is thus essential reading for anyone seeking to understand how fears and anxieties about race and race relations are made manifest and often challenged on the silver screen.

**Historical Dictionary of the Barack Obama Administration** Michael J. Pomante II, Scot Schraufnagel, 2018-04-06 Barack Obama the first African American president of the United States. In a country with a rich

history of racial animosities Obama represents a notable deviation in the trajectory of America's presidential history. At the close of his second term in office a survey of the personalities and events associated with his presidency is fitting. In this walk through recent history we will be keen to point out the president's successes, failures and challenges. Governing in a society ripe with ideological and partisan polarization the Obama Administration was surrounded by controversy much of it manufactured by his opponents but salient nonetheless. This volume will attempt to provide perspective and clarity on the most important individuals and experiences connected to Obama during his eight years in office but also his early life. Information included in this volume also includes discussion of his transition out of office and events taking place at the beginning of the Donald Trump Administration. This second edition of *Historical Dictionary of the Barack Obama Administration* contains a chronology, an introduction, appendixes and an extensive bibliography. The dictionary section has over 300 cross-referenced entries on important personalities including the president, his advisors, his family, his opponents and his critics as well as members of Congress, military leaders and international leaders. This book is an excellent resource for students, researchers and anyone wanting to know more about Barack Obama.

**Still Life with Rhetoric** Laurie Gries, 2015-04-01. Winner of the 2016 CCCC Advancement of Knowledge Award and the 2016 CCCC Research Impact Award. In *Still Life with Rhetoric* Laurie Gries forges connections among new materialism, actor network theory and rhetoric to explore how images become rhetorically active in a digitally networked global environment. Rather than study how an already materialized visual text functions within a specific context, Gries investigates how images often circulate and transform across media, genre and location at viral rates. A four-part case study of Shepard Fairey's now iconic Obama Hope image elucidates how images reassemble collective life as they actualize in different versions, enter into various relations and spark a firework of activity across the globe. While intent on tracking the rhetorical life of a single multiple image, *Still Life with Rhetoric* is most concerned with studying rhetoric in motion. To account for an image's widespread circulation and emergent activities, Gries introduces iconographic tracking, a digital research method for tracing an image's divergent rhetorical becomings. Yet Gries also articulates a dynamic set of theoretical principles for studying rhetoric as a distributed, generative and unforeseeable event that is applicable beyond the study of visual rhetoric. With an eye toward futurity, the strands of time beyond a thing's initial moment of production and delivery, *Still Life with Rhetoric* intends to be taken up by those interested in visual rhetoric research methods and theory.

**The Great Recession in Fiction, Film, and Television** Kirk Boyle, Daniel Mrozowski, 2013-10-17. *The Great Recession in Fiction, Film, and Television*. Twenty First Century Bust Culture sheds light on how imaginary works of fiction, film and television reflect, refract and respond to the recessionary times specific to the twenty first century, a sustained period of economic crisis that has earned the title the Great Recession. This collection takes as its focus Bust Culture, a concept that refers to post-crash popular culture specifically the kind mass produced by multinational corporations in the age of media conglomeration which is inflected by diminishment influenced by

scarcity and infused with anxiety The multidisciplinary contributors collected here examine mass culture not typically included in discussions of the financial meltdown from disaster films to reality TV hoarders the horror genre to reactionary representations of women Christian right radio to Batman television characters of color to graphic novels and literary fiction The collected essays treat our busted culture as a seismograph that registers the traumas of collapse and locate their pop artifacts along a spectrum of ideological fantasies social erasures and profound fears inspired by the Great Recession What they discover from these unlikely indicators of the recession is a mix of regressive progressive and bemused texts in need of critical translation
