

# Pixel versus Object based Image Analysis, OBIA

- First, let's look at 'normal' pixel based image analysis:
- This is based purely on pixels, reflectance values
- For classification, **multiple pixels are grouped into classes** based on **spectral characteristics**
- Classes represent features on Earth

# Object Based Image Analysis Object Based Image Analysis

**Thomas Blaschke, Stefan  
Lang, Geoffrey Hay**

## **Object Based Image Analysis Object Based Image Analysis:**

**Object-Based Image Analysis** Thomas Blaschke, Stefan Lang, Geoffrey Hay, 2008-08-09 This book brings together a collection of invited interdisciplinary perspectives on the recent topic of Object based Image Analysis OBIA Its content is based on select papers from the 1 OBIA International Conference held in Salzburg in July 2006 and is enriched by several invited chapters All submissions have passed through a blind peer review process resulting in what we believe is a timely volume of the highest scientific theoretical and technical standards The concept of OBIA first gained widespread interest within the GIScience Geographic Information Science community circa 2000 with the advent of the first commercial software for what was then termed object oriented image analysis However it is widely agreed that OBIA builds on older segmentation edge detection and classification concepts that have been used in remote sensing image analysis for several decades Nevertheless its emergence has provided a new critical bridge to spatial concepts applied in multiscale landscape analysis Geographic Information Systems GIS and the synergy between image objects and their radiometric characteristics and analyses in Earth Observation data EO

**Multispectral Image Analysis Using the Object-Oriented Paradigm** Kumar Navulur, 2006-12-05 Bringing a fresh new perspective to remote sensing object based image analysis is a paradigm shift from the traditional pixel based approach Featuring various practical examples to provide understanding of this new modus operandi Multispectral Image Analysis Using the Object Oriented Paradigm reviews the current image analysis methods and demonstrates advantages to improve information extraction from imagery This reference describes traditional image analysis techniques introduces object oriented technology and discusses the benefits of object based versus pixel based classification It examines the creation of object primitives using image segmentation approaches and the use of various techniques for object classification The author covers image enhancement methods how to use ancillary data to constrain image segmentation and concepts of semantic grouping of objects He concludes by addressing accuracy assessment approaches The accompanying downloadable resources present sample data that enable the use of different approaches to problem solving Integrating remote sensing techniques and GIS analysis Multispectral Image Analysis Using the Object Oriented Paradigm distills new tools to extract information from remotely sensed data

*Object-Based Image Analysis and Treaty Verification* Sven Nussbaum, Gunter Menz, 2008-01-09 With the launch of very high resolution satellite sensors at the beginning of this decade e g IKONOS OrbView QUICKBIRD many important new remote sensing applications have been developed Major progress has been demonstrated in the accurate detection identification and analysis of small scale site specific features including critical commercial and industrial facilities such as nuclear power plants According to IAEA Director General and 2005 Nobel Peace Prize winner Dr Mohamed ElBaradei the provision of the necessary information and guarantees for monitoring the Iranian nuclear programme is an urgent priority for the future Today satellite imagery analysis is an integral part of the International Atomic Energy Agency's IAEA safeguards and verifications efforts and high resolution

commercial satellite imagery is an important component of this process. Several international studies have proven the usefulness and documented the applicability of remotely sensed data for site verification purposes. Recent important developments in satellite sensor capabilities and innovations in analytic techniques make it clear that this hardware/software complex is changing and improving rapidly. This book documents the latest developments in satellite data analysis and comprehensively describes the process of extracting information from spaceborne sensor data for site verification purposes.

**Object-based Image Analysis for Scaling Properties of Rangeland Ecosystems** Jason William Karl, 2009

**Geographic Object-based Image Analysis**, 2007. The field of earth observation EO has seen tremendous development over recent time owing to the increasing quality of the sensor technology and the increasing number of operational satellites launched by several space organizations and companies around the world. Traditionally the satellite data is analyzed by only considering the spectral characteristics measured at a pixel. The spatial relations and context were often ignored. With the advent of very high resolution satellite sensors providing a spatial resolution of 5m, the shortfalls of traditional pixel-based image processing techniques became evident. The need to identify new methods then led to focusing on the so-called object-based image analysis (OBIA) methodologies. Unlike the pixel-based methods, the object-based methods, which are based on segmenting the image into homogeneous regions, use the shape, texture, and context associated with the patterns, thus providing an improved basis for image analysis. The remote sensing data normally has to be processed in a different way to that of the other types of images. In the geographic sense, OBIA is referred to as Geographic Object-Based Image Analysis (GEOBIA), where the GEO pseudo prefix emphasizes the geographic components. This thesis will provide an overview of the principles of GEOBIA, describe some fundamentally new contributions to OBIA in the geographical context, and finally summarize the current status with ideas for future developments.

**Segmentation of Urban Remotely Sensed Imagery**

**for Object Based Image Analysis** Pádraig Corcoran, 2008

**Geographic Object Based Image Analysis** Prashanth

Reddy Marpu, 2009

*Image and Signal Processing for Remote Sensing*, 2006

*Multiple Feature Object-Based Change*

*Detection Technology for Very High-Resolution Remote Sensing Image* Qiang Chen, Yunhao Chen, Mingyi Du, 2026-01-01. This book is devoted to the theory and method of the change detection on very high resolution remote sensing image. Since the very high resolution remote sensing images have been used in the field of land cover or land use change detection problems such as salt and pepper effect, single spectral feature, and the difficulty of discrimination of change types always affect the accuracy of information extraction by using the object-based image analysis. This book comprehensively introduces the field from basic theory of remote sensing change detection to various key technologies such as multi-scale image segmentation, consistency difference analysis, genetic particle swarm optimization, multi-feature selection, adaptive weight change vector analysis, and so on. Using numerous data examples, it explains the relevant concepts and theoretical background of the object-based change detection and proposes a theoretical method and process of multi-feature change detection of very high

resolution remote sensing images The targeted audience is advance graduate students and researchers who wish to learn about the physical process underlying the image segmentation feature selection and change detection by using the very high resolution remote sensing in the perspective of the object based image analysis The basis of English translation of this book originally in Chinese was facilitated by artificial intelligence The content was later revised by the author for accuracy

**Object-based Image Analysis for Detection and Segmentation Tasks in Biomedical Imaging** Michael Schiewer, 2016 Object Based Image Analysis Tommaso Ramponi, Københavns Universitet. Institut for Geografi og Geologi, 2012 *Segmentation and Classification of Remotely Sensed Images* Abdul Haleem Syed, 2015 Land use and land cover LULC mapping is crucial in precision agriculture environmental monitoring disaster response and military applications The demand for improved and more accurate LULC maps has led to the emergence of a key methodology known as Geographic Object Based Image Analysis GEOBIA The core idea of the GEOBIA for an object based classification system OBC is to change the unit of analysis from single pixels to groups of pixels called objects through segmentation While this new paradigm solved problems and improved global accuracy it also raised new challenges such as the loss of accuracy in categories that are less abundant but potentially important Although this trade off may be acceptable in some domains the consequences of such an accuracy loss could be potentially fatal in others for instance landmine detection This thesis proposes a method to improve OBC performance by eliminating such accuracy losses Specifically we examine the two key players of an OBC system Hierarchical Segmentation and Supervised Classification Further we propose a model to understand the source of accuracy errors in minority categories and provide a method called Scale Fusion to eliminate those errors This proposed fusion method involves two stages First the characteristic scale for each category is estimated through a combination of segmentation and supervised classification Next these estimated scales segmentation maps are fused into one combined object map Classification performance is evaluated by comparing results of the multi cut and fuse approach proposed to the traditional single cut SC scale selection strategy Testing on four different data sets revealed that our proposed algorithm improves accuracy on minority classes while performing just as well on abundant categories Another active obstacle presented by today s remotely sensed images is the volume of information produced by our modern sensors with high spatial and temporal resolution For instance over this decade it is projected that 353 earth observation satellites from 41 countries are to be launched Timely production of geo spatial information from these large volumes is a challenge This is because in the traditional methods the underlying representation and information processing is still primarily pixel based which implies that as the number of pixels increases so does the computational complexity To overcome this bottleneck created by pixel based representation this thesis proposes a dart based discrete topological representation DBTR where the DBTR differs from pixel based methods in its use of a reduced boundary based representation Intuitively the efficiency gains arise from the observation that it is lighter to represent a region by its boundary darts than by its area pixels

We found that our implementation of DBTR not only improved our computational efficiency but also enhanced our ability to encode and extract spatial information Overall this thesis presents solutions to two problems of an object based classification system accuracy and efficiency Our proposed Scale Fusion method demonstrated improvements in accuracy while our dart based topology representation DBTR showed improved efficiency in the extraction and encoding of spatial information

**Abstract**     *Multiple Feature Object-Based Change Detection Technology for Very High-Resolution Remote Sensing Image*

Qiang Chen,Yunhao Chen,Mingyi Du,2025-12-24 This book is devoted to the theory and method of the change detection on very high resolution remote sensing image Since the very high resolution remote sensing images have been used in the field of land cover or land use change detection problems such as salt and pepper effect single spectral feature and the difficulty of discrimination of change types always affect the accuracy of information extraction by using the object based image analysis This book comprehensively introduces the filed from basic theory of remote sensing change detection to various key technologies such as multi scale image segmentation consistency difference analysis genetic particle swarm optimization multi feature selection adaptive weight change vector analysis and so on Using numerous data examples it explains the relevant concepts and theoretical background of the object based change detection and proposes a theoretical method and process of multi feature change detection of very high resolution remote sensing images The targeted audience is advance graduate students and researchers who wish to learn about the physical process underlying the image segmentation feature selection and change detection by using the very high resolution remote sensing in the perspective of the object based image analysis The basis of English translation of this book originally in Chinese was facilitated by artificial intelligence The content was later revised by the author for accuracy

### **Uncertainty of Object-Based Image Analysis for Drone**

**Survey Images** Lei Ma, 2018 With the recent developments in the acquisition of images using drone systems object based image analysis OBIA is widely applied to such high resolution images Therefore it is expected that the application of drone survey images would benefit from studying the uncertainty of OBIA The most important source of uncertainty is image segmentation which could significantly affect the accuracy at each stage of OBIA Therefore the trans scale sensitivity of several spatial autocorrelation measures optimizing the segmentation was investigated including the intrasegment variance of the regions Moran's I autocorrelation index and Geary's C autocorrelation index Subsequently a top down decomposition scheme was presented to optimize the segmented objects derived from multiresolution segmentation MRS and its potential was examined using a drone survey image The experimental results demonstrate that the proposed strategy is able to effectively improve the segmentation of drone survey images of urban areas or highly consistent areas

Eventually, you will utterly discover a other experience and finishing by spending more cash. nevertheless when? accomplish you take on that you require to acquire those every needs subsequent to having significantly cash? Why dont you attempt to get something basic in the beginning? Thats something that will guide you to comprehend even more all but the globe, experience, some places, past history, amusement, and a lot more?

It is your enormously own mature to produce an effect reviewing habit. in the midst of guides you could enjoy now is **Object Based Image Analysis Object Based Image Analysis** below.

## Object Based Image Analysis Object Based Image Analysis Introduction

Object Based Image Analysis Object Based Image Analysis Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Object Based Image Analysis Object Based Image Analysis Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Object Based Image Analysis Object Based Image Analysis : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Object Based Image Analysis Object Based Image Analysis : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Object Based Image Analysis Object Based Image Analysis Offers a diverse range of free eBooks across various genres. Object Based Image Analysis Object Based Image Analysis Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Object Based Image Analysis Object Based Image Analysis Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Object Based Image Analysis Object Based Image Analysis, especially related to Object Based Image Analysis Object Based Image Analysis, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Object Based Image Analysis Object Based Image Analysis, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Object Based Image Analysis Object Based Image Analysis books or magazines might include. Look for these in online stores or libraries. Remember that while Object Based Image Analysis Object Based Image Analysis, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Object Based Image Analysis Object Based Image Analysis eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website

Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Object Based Image Analysis Object Based Image Analysis full book, it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Object Based Image Analysis Object Based Image Analysis eBooks, including some popular titles.

### FAQs About Object Based Image Analysis Object Based Image Analysis Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Object Based Image Analysis Object Based Image Analysis is one of the best book in our library for free trial. We provide copy of Object Based Image Analysis Object Based Image Analysis in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Object Based Image Analysis Object Based Image Analysis. Where to download Object Based Image Analysis Object Based Image Analysis online for free? Are you looking for Object Based Image Analysis Object Based Image Analysis PDF? This is definitely going to save you time and cash in something you should think about.
