Carl A. Shaw

Observationes Criticae Platonis Reliquias Classic:

Harper's Dictionary of Classical Literature and Antiquities Harry Thurston Peck, 1897

FrC 22.2 Nikostratos II -

Theaitetos Andrew Hartwig, 2022-01-17 This work is part of the *Fragmenta Comica* series which aims to provide commentaries and translations to all the surviving fragments and testimonia of the comic poets of ancient Greece. This volume offers the first scholarly commentary and sustained study of several late fourth century BCE poets of the so called New Comedy among them Philippides of Athens a writer and dramatist highly esteemed in antiquity known especially for his acrimonious clashes with Athenian demagogues and his influential friendship with foreign kings. All fragments are subject to close textual linguistic and stylistic analysis and are interpreted against the wider literary social and historical background of the period. This volume will be a valuable reference work for scholars and students of ancient comedy as well as anyone interested in ancient literature more generally and the broader historical and cultural contexts in which these texts were written

The Classical Review, 1889 *Chronology and History of the Attic Theatre* Massimiliano Ornaghi, 2025-05-19

Chronology and History of the Attic Theatre presents the results of research carried out by a wide range of scholars specialised in various fields of ancient theatre studies brought together in dialogue on a common focus the history of the Attic theatre from its origins to the fifth century BCE. Each chapter of the book proceeds from a case study but aims to draw general conclusions in relation to the main theme. Many types of evidence have been collected and analysed archaeological evidence especially from the sixth and fifth centuries BCE epigraphic evidence from the sixth century BCE to the Hellenistic period literary evidence from the tragedies satyr plays and comedies but also classical and post classical texts relating to pre theatrical performances and the first dramatic contests. These sources have been used to analyse the different theatrical phenomena from a historical chronological perspective looking also at the links between them or with other artistic expressions and at the phases of reception and theorisation of classical theatre. The book thus offers a wealth of information updated rethought and linked in original ways that can contribute to a better vision of the history of ancient Greek theatre.

Eupolis, Poet of Old Comedy Ian Christopher Storey, 2003 Eupolis fl 429-411 BC was one of the best attested and most important of Aristophanes' rivals. No complete work by this lost master has survived but of his fourteen plays we have 500 fragments. These include 120 lines of his best known comedy *Demoi* The Demes which were discovered and published in 1911. Even in fragmentary form Eupolis' plays shed interesting light on the whole range of issues political poetic and dramatic that make Aristophanes so perennially fascinating. There has however been no substantial survey in English until now. As well as providing a new translation of all the remaining fragments and a separate essay on each lost play Ian C Storey discusses Eupolis' career redates the plays examines how Eupolis was known in the ancient world explores his relationship with Aristophanes as both rival and collaborator and delineates the distinct nature of the comedy that this prizewinning poet created

Classical Scholarship Ward W. Briggs, William Musgrave Calder, 1990 *Aristophanes the Democrat* Keith

Sidwell,2009-10-22 This book argues that writers of Old Comedy belonged to recognisable political circles and used their comedy to disparage their political enemies *Classified List ... Princeton University. Library,1920 Aristophanes and Politics* Ralph M. Rosen,Helene P. Foley,2020-04-14 The essays in this volume explore the many aspects of the political in the plays of Greek comic dramatist Aristophanes 5th century BCE posing a variety of questions and approaching them through diverse methodological lenses They demonstrate that politics as reflected in Aristophanes plays remains a fertile and even urgent area of inquiry as political developments in our own time distinctly color the ways in which we articulate questions about classical Athens As this volume shows the earlier scholarship on politics in or and Aristophanes which tended to focus on determining Aristophanes actual political views has by now given way to approaches far more sensitive to how comic literary texts work and more attentive to the complexities of Athenian political structures and social dynamics All the studies in this volume grapple to varying degrees with such methodological tensions and show that the richer and more diverse our political readings of Aristophanes can become the less stable and consistent as befits a comic work they appear to be

Ancient Greek Purism Olga Tribulato,Federico Favi,Lucia Prauscello,2024-12-30 This volume is the first of four devoted to Atticism a form of linguistic purism that sought to preserve the rules of the 5th century Attic dialect against the evolution of Postclassical Greek The series elucidates the origins and development of Atticist thought as well as its impact transmission and legacy from the Byzantine Middle Ages to the Renaissance Although Atticism flourished in the Imperial age its roots are steeped in the previous centuries This volume investigates the broad historical cultural and linguistic factors leading to the emergence of Attic as a prestige variety among the classical Greek dialects the way Attic exclusivity was construed in Athenian literary sources and how Hellenistic scholarship contributed to monumentalising Attic supremacy Atticism can be regarded as the first example of an intellectual movement seeking to promote an extinct variety to the status of linguistic standard reflecting an ideological and nostalgic view of identity This volume traces the roots of this linguistic phenomenon back to factors at work in the construction of Hellenicity in the archaic and classical periods *Satyr Play* Carl A. Shaw,2014 Since it was written by tragedians and employed a number of formal tragic elements satyr drama is typically categorized as a sub genre of Greek tragedy This categorization however gives an incomplete picture of the complicated relationship of the satyr play to other genres of drama in ancient Greece For example the humorous chorus of half man half horse satyrs suggests sustained interaction between poets of comedy and satyr play In *Satyr Play* Carl Shaw notes the complex shifting relationship between comedy and satyr drama from sixth century BCE proto drama to classical productions staged at the Athenian City Dionysia and bookish Alexandrian plays of the third century BCE and argues that comedy and satyr plays influenced each other in nearly all stages of their development This is the first book to offer a complete integrated analysis of Greek comedy and satyr drama analyzing the details of the many literary aesthetic historical religious and geographical connections to satyr drama Ancient critics and poets allude to comic satyric associations in surprising ways

vases indicate a common connection to komos revelry song and the plays themselves often share titles plots modes of humor and even on occasion choruses of satyrs Shaw's insight into this evidence reveals the relationship between satyr drama and Greek comedy to be much more intimately connected than we had known and in fact much closer than that between satyr drama and tragedy Satyric Play brings new light to satyr drama as a complex artful inventive and even cleverly paradoxical genre
