**The Sex Obsession** Janet R. Jakobsen, 2020-08-25 Finalist 2021 Lambda Literary Award in LGBTQ Studies Offers a way to undo the inextricable American knot of sex politics religion and power American politics are obsessed with sex Before the first televised presidential debate John F Kennedy trailed Richard Nixon in the polls As Americans tuned in however they found Kennedy a younger more vivacious and more attractive choice than Nixon Sexier The political significance of Kennedy's telegenic sex appeal is now widely accepted but taking sexual politics seriously is not Janet R Jakobsen examines how for the last several decades gender and sexuality have reappeared time and again at the center of political life marked by a series of widely recognized issues and movements women's liberation and gay liberation in the 1960s and 70s the AIDS crisis and ACT UP in the 80s and 90s welfare and immigration reform in the 90s wars claiming to save women in the 2000s and battles over health care in the 2010s to recent demands for reproductive justice trans liberation and the explosive exposures of MeToo Religion has been wound up in these political struggles and blamed for not a little of the resistance to meaningful change in America political life Jakobsen acknowledges that religion is a force to be reckoned with but decisively breaks with the common sense that religion and sex are the fixed binary of American political life She instead follows the kaleidoscopic ways in which sexual politics are embedded in social relations of all kinds not only the intimate relations of love and family with which gender and sex are routinely associated but also secularism freedom race disability capitalism nation and state housing and the environment In the midst of these obsessions Jakobsen's promiscuous ethical imagination guides us forward Drawing on examples from collaborative projects among activists academics and artists Jakobsen shows that sexual politics can contribute to building justice from the ground up Gender and sexual relations are practices through which values emerge and communities are made Sex and desire gender and embodiment emerge as bases of ethical possibility breaking political stalemate and opening new possibility
