

Mapping Lab: Oceania and Antarctica

MAKING A MENTAL MAP

1. Look at the outline map of Oceania and Antarctica on the next page. Then draw and label these features where you think they are located:
 - Australia and New Zealand
 - Antarctica
 - the equator
 - the oceans
 - the areas that you think have the greatest population
 - the areas that you think have the least population
2. Revise this mental map at the end of the Mapping Lab. Follow these steps to analyze your mental map:
 - Use one color to highlight or circle at least three details that were correct or fairly accurate.
 - Use another to highlight or circle at least three details that were inaccurate. Correct those items.
 - Use a third to add at least three new items.
 - At least one item should represent information about physical geography, and at least one should represent information about human geography.

Answers may vary.

Global ocean science report UNESCO, IOC, Valdés, Luis, 2017-07-04 The Global Ocean Science Report GOSR assesses for the first time the status and trends in ocean science capacity around the world. The report offers a global record of how where and by whom ocean science is conducted generating knowledge helping to protect ocean health and empowering society to support sustainable ocean management in the framework of the United Nations 2030 Agenda. The GOSR identifies and quantifies the key elements of ocean science at the national regional and global scales including workforce infrastructure and publications. It is the first collective attempt to systematically highlight opportunities as well as capacity gaps to advance international collaboration in ocean science and technology. This report is a resource for policy makers academics and other stakeholders seeking to harness the potential of ocean science to address global challenges. A comprehensive view of ocean science capacities at the national and global levels takes us closer to developing the global ocean science knowledge needed to ensure a healthy sustainable ocean.
