*Introduction to Information Systems* R. Kelly Rainer (Jr.), Brad Prince, Cristóbal Sánchez-Rodríguez, Sepideh Ebrahimi, Ingrid Splettstoesser, 2023-10-23 As digital transformation becomes increasingly central to effective corporate strategy today students must learn how information systems provide the foundation for modern business enterprises. Known for its rich Canadian content and focus on active learning, *Introduction to Information Systems Sixth Canadian Edition* shows students how they can use IS to help their current or future employers increase profitability, improve customer service, manage daily operations and drive impact in their markets. This course demonstrates that IT is the backbone of any business, whether a student is majoring in accounting, finance, marketing, human resources, production operations management or MIS. **Extending the Protection of Geographical Indications** Michael Blakeney, 2012 The TRIPS Agreement for trade related intellectual property rights provides for the general protection of geographical indications (GIs) of product origin, including for example the special protection of wines and spirits and for the creation of a multilateral register for wines. The African Group of countries has been in the forefront of countries agitating in the World Trade Organization TRIPS Council for the extension of this special protection and of the multilateral register to industries which are of interest to developing countries, primarily agriculture. The so called extension question is the central feature of the Doha Development Agenda at both the WTO and World Intellectual Property Organization. This book provides some empirical evidence and applied legal and economic reasoning to this debate. It provides both a general review of the key issues and a series of case studies from six Anglophone and four Francophone countries in Africa. These focus on major agricultural commodities such as coffee, cotton, cocoa and tea, as well as more specific and local products such as Argan oil and Oku white honey.
