Williams,2021-09-30 The heightening impact of ecological and societal crises makes sustainability an increasingly urgent  
imperative requiring a fundamental shift in how we understand and practice management and business In this book the  
authors set out the key characteristics of sustainability such as its temporal and multilevel effects and highlight the complex  
array of sustainability risks and opportunities for business and management Setting business within a systems perspective  
the authors outline different sustainability discourses that frame how business responds to the sustainability imperative They  
call for the normative and scientific approaches to sustainability to be merged so that a new transdisciplinary approach that  
brings together the material and relational traditions in sustainability management is developed Sustainability work is  
understood as the reframing of tools technologies practices and business strategies to respond to the imperative The book  
concludes by highlighting dynamic features of the imperative as it is shaped by the urgent need to restore and regenerate

social and ecological systems Sustainability transitions such as the Circular Economy and Net Zero are suggested as inspiration for profound business transformation By facing the intractable complexity associated with sustainability this book challenges students and scholars to draw from across the sciences and social sciences to understand reflect upon and deliver responsible business outcomes in contemporary society **TV Guide** ,2007 *Library of Congress Catalog* Library of Congress,1958 **Cue** ,1970
