**Teach Yourself VISUALLY MacBook** Guy Hart-Davis, 2016-04-25 Previous editions written by Brad Miser      **Graph Databases in Action** Dave Bechberger, Josh Perryman, 2020-11-24 Graph Databases in Action introduces you to graph database concepts by comparing them with relational database constructs. You'll learn just enough theory to get started then progress to hands-on development. Discover use cases involving social networking, recommendation engines, and personalization. Summary: Relationships in data often look far more like a web than an orderly set of rows and columns. Graph databases shine when it comes to revealing valuable insights within complex interconnected data such as demographics, financial records, or computer networks. In Graph Databases in Action, experts Dave Bechberger and Josh Perryman illuminate the design and implementation of graph databases in real-world applications. You'll learn how to choose the right database solutions for your tasks and how to use your new knowledge to build agile, flexible, and high-performing graph-powered applications. Purchase of the print book includes a free eBook in PDF, Kindle, and ePub formats from Manning Publications.

About the technology: Isolated data is a thing of the past. Now data is connected and graph databases like Amazon Neptune, Microsoft Cosmos DB, and Neo4j are the essential tools of this new reality. Graph databases represent relationships naturally, speeding the discovery of insights and driving business value. About the book: Graph Databases in Action introduces you to graph database concepts by comparing them with relational database constructs. You'll learn just enough theory to get started then progress to hands-on development. Discover use cases involving social networking, recommendation engines, and personalization. What's inside: Graph databases vs. relational databases, Systematic graph data modeling, Querying and navigating a graph, Graph patterns, Pitfalls and antipatterns, About the reader: No experience with graph databases required, About the author: Dave Bechberger and Josh Perryman have decades of experience building complex data-driven systems and have worked with graph databases since 2014.
