Running with Power: Why Would You? Steve Bateman, 2024-03-22 Is power the next great running metric Power which measures your effort how hard you're running is becoming more popular All of the major running watch manufacturers include wrist based power in their new models and the number of runners using power in the World Marathon Majors has doubled every year since 2016 Running with Power you can Run your Personal Best based on your measured fitness not just a hopeful finish time Maximise your training gains while minimising injury risk Improve your fatigue resistance to run harder for longer Measure the effectiveness of drills plyometrics or strength work Power may be the next great running metric But that isn't what this book is about This book answers the question Why would you Run with Power Written by an England Athletics certified coach who's been using power since 2018 it explores what running with power is what's different about power and the benefits why you should use it Running with Power is based on decades of research and practice packaged as a set of powerful models and metrics that can be used to guide your training and racing more effectively than Heart Rate or Pace All of which leads to the question Why wouldn't you Run with Power

Value Co-Creation in Web 3.0 Robin Qiu, 2026-01-01 This book explores the architecture and framework for co-creating the most valuable and promising data in the future Internet often referred to as Web 3.0 from the end user's perspective Unlike the current platform economy where user's daily usage and activity data is predominantly held by individual organizations Web 3.0 advocates for decentralized data management across interconnected platforms This approach aims to fully utilize the vast amounts of data generated by the increasingly connected physical world The book explains how Web 3.0 can be developed with fundamental and technological support to enhance decentralized data

management and maximize benefits for end users Additionally it presents two use cases to illustrate how value co creation can be achieved using Web 3 0 The book is aimed primarily at students from business and engineering schools It also serves as a valuable teaching resource for instructors in management information systems MIS information systems information science and technology and data and computing sciences Additionally professionals interested in digital transformation blockchain technology data analytics AI and digital economy policymaking will find it highly relevant
