authors wanting to learn TikTok's unique language and trends to effectively promote their published works **The Quick-Start Library Guide** Kelly Mayfield, Amy O. Milstead, 2025-09-04 Helps paraprofessionals and new school librarians begin their first school year with confidence. New librarians and paraprofessionals often come to school library positions with little or no experience in library work and there's a gap in instructional information available for those who want to quickly increase their skill level. This book helps professionals and paraprofessionals learn what they need to know to get started as well as pointing them to additional resources in areas where they might want more advanced information. This practical guide teaches librarians and paraprofessionals to develop systems and create plans for programs and partnerships with teachers and other professionals to set them up for success during their first year in the library. A timeline helps map out the rhythm of a school year. The Quick Start Library Guide introduces paraprofessionals to library science topics such as cataloging, collection development, and weeding. It covers topics specific to the school library such as reading levels, book fairs, and author visits. Each section includes suggested resources for more in-depth learning. Librarians and paraprofessionals will be able to use this valuable, straightforward guide to hit the ground running in their new role.

How to Publish Academic Books: A Guide to Publishing Monographs, Edited Volumes, Textbooks, and Theses Nitin Liladhar Rane, Saurabh Choudhary, Jayesh Rane, 2024-12-05 The academic book publishing sector has a key function when it comes to knowledge production and dissemination across various disciplines. For researchers, scholars, and educators, the process of moving from concept to publication is rarely a trivial task and often involves the use of imagination, perseverance, and teamwork. Publishing a monograph, an edited volume, or a textbook, or turning your thesis into a book can be painful. This book will help you demystify the world of academic book publishing, offering authors a guide to navigating the complicated process with success. This guide aims to provide authors with the knowledge of tools and resources needed to publish a book that reflects their research. If you want a sneak peek into the workings of scholarly publishing, it features advice from senior authors, publishers, and academics with an intimate familiarity with the academic publishing process. Divided into chapters, the book covers the major elements of the publishing journey: steps to writing the proposal, advice on working with publishers, and challenges of the current moment like open access and new fields of study. The first step to getting published is learning to write a scholarly manuscript or book proposal. Writers need to know how to present their research in front of potential publishers. It necessitates not just a firm grasp on the work in question but a facility for conveying the relevance of the work and its potential to make a difference. Therefore, it is very important to tread carefully through the relationship with the publishers as the success of publishing partnerships relies heavily on trust, collaboration, and shared vision for the book. Open access publishing for scientific journals has played an increasingly important role in the ever-evolving academic world. There are new ways for authors to disseminate their work and increase the accessibility of research through open access. It is an exciting time to be an author, but it is also a challenging time in terms of financial viability and finding new publishing models.

This section deeply studies the influence of open access so that authors can better develop books around it. Many students work years on their theses and getting them published can greatly aid their academic careers. It is not simply editing this means changing the format to suit for wider academic publication and conforming to the expectations of the publisher. This book is a road map for authors making this transition. For authors in emerging or interdisciplinary fields publishing can bring unique challenges. There may not be established publishing pathways in these fields or the intended audience may be smaller and more specialized. Despite these challenges there are great rewards to publishing in such fields and this book outlines strategies to achieve their success. Authors will discover how to seek the ideal publisher, determine their target market and how to frame their work to have a noteworthy effect in their area. Technological advancements, global trends and academic expectations have all combined to shape the future of academic book publishing. By the end of this book readers will be equipped with a fundamental understanding of the academic publishing process. From preparing manuscripts and working with publishers to navigating new models of publishing this guide arms authors with practical advice and strategies to ensure their research becomes a published book. It is our goal that this book helps those who hope to disseminate their research through publication of scholarly books.

Inside, you'll find an honest, unbiased look at the pros and cons of five publishing paths: traditional, independent, hybrid, self-publishing, and social publishing, as well as an in-depth look at self-publishing all while guiding you through the process one easy-to-understand step at a time.

Postliterary Attention Theory: Reading, Fragmentation, and Meaning in the Digital Age Shaikh Afnan Birahim, 2025-09-22 *Postliterary Attention Theory: Reading, Fragmentation, and Meaning in the Digital Age* explores how our ability to read deeply has eroded in an era dominated by feeds, fragments, and dopamine-driven design. Blending literary history, media theory, and cognitive science, Shaikh Afnan Birahim traces the journey from modernist experimentation to TikTok snippets, showing how attention itself has become a cultural battleground. This book is both diagnosis and manifesto, an invitation to reclaim slow reading as an act of resistance and rediscover the joy, intimacy, and meaning that only literature can provide.

Retooling Study Abroad Carmen Granda, 2023-11-02 Study abroad is the ideal option for world language students to immerse themselves in the target language and culture. However, circumstances beyond control may make travel challenging, even impossible. Technology has the potential to engage students and provide an opportunity for linguistic and cultural immersion from home. In addition to immersing students in the target language and culture, Carmen Granda shows that technology can be implemented in all world language courses to foster connections and comparisons and, most importantly, create community in and outside of the

classroom She demonstrates that digital tools have the power to make language learning inclusive of and accessible to all students fulfilling diversity equity and inclusion DEI goals of higher education [CIM Bulletin](#) Canadian Institute of Mining, Metallurgy and Petroleum,1977-08 [Secret Guide to Earn Millions on Tik Tok And Become Trend Maker](#) Poonam
