*Society Without People* Christopher Pieper, Justin Nelson, 2025-06-16 Society Without People is the first major scholarly analysis of the profound social and cultural effects of emerging technologies such as generative AI and the Metaverse. Using an approachable style and compelling scenarios, Pieper and Nelson examine the potential ways these technologies will shape identity, institutions, relationships, communities, power, and personhood itself in the near future. Introducing the theory of Gamism, the authors suggest that the logic of games could serve as the new ideology governing this strange, exciting world. One question underlies each chapter: how can humans flourish in the midst of such rapid and deep changes? It is a must-read for anyone concerned about the future of society and technology.

**Crying Poor Me Feminism** Connie Riker, 101-01-01 Tired of Men Gaslighting Your Genius, Crush Their Logic With the Unholy Fire of Female Truth. Do men dismiss your intuition as irrational while stealing your ideas to build their empires? Are you exhausted from performing emotional labor for partners who weaponize your vulnerability? Why waste energy debating oppressors when you could burn their systems to ash and rebuild a matriarchy? Unlock the evolutionary power of female rage: your anger isn't a flaw; it's a weapon. Arm yourself with Satanic wombs and sacred abortions to defy patriarchal control. Reclaim witchcraft as economic warfare against men hoarding wealth and credit. Expose the male cult of mediocrity: their logic is a smokescreen for theft. Transform heterosexuality from captivity to conquest: make men pay literally. Master double binds that trap men in no-win scenarios; they deserve it. Replace male genius with AI matriarchs and watch civilization finally thrive. Guilt-free misandry: Hate them better with data-backed sanctimony. If you want to profit from men's extinction while laughing at their tears, buy this book today. The revolution is a pyramid scheme and you're at the top.
