Why do some ideas make it big while others fail to take off According to award winning behavioural economist John List the answer comes down to a single question Can the idea scale Countless enterprises fall apart the moment they scale their positive results fizzle they lose valuable time and money and the great electric charge of potential that drove them early on disappears In short they suffer a voltage drop Yet success and failure are not about luck in fact there is a rhyme and reason as to why some ideas fail and why some make it big Certain ideas are predictably scalable while others are predictably destined for disaster In The Voltage Effect University of Chicago economist John A List explains how to identify the ideas that will be successful when scaled and how to avoid those that won't Drawing on his own original research as well as fascinating examples from the realms of business government education and public health he details the five signature elements that cause voltage drops and unpacks the four proven techniques for increasing positive results or voltage gains and scaling great ideas to their fullest potential By understanding the science of scaling we can drive change in our schools workplaces communities and society at large Because a better world can only be built at scale

somewhere and yet Uber has been around only since 2010 Uber has disrupted the ride hailing industry from making it easier and more affordable to become an Uber driver than a cab driver to rating riders as well as drivers As an early pioneer in using technology to create a new business model and new efficiencies Uber is considered one of the most important case studies in the sharing economy However little in depth information exists on this innovative company This book traces Uber's origin and evolution in the face of competitive pressures discusses the company leadership and corporate culture addresses such controversies as rider and driver safety and sexual harassment of female employees and explores how the company is addressing these challenges Students of business entrepreneurs and anyone interested in the development and exponential growth of the sharing economy will benefit from reading this book **Minnesota Law Review** ,2016 **Scribner's Popular History of the United States** William Cullen Bryant,Sydney Howard Gay,Noah Brooks,1897 **The Yorkshire Archaeological Journal** ,1879 *The Boke of Duke Huon of Burdeaux*,.
