Hicks, Kavita Philip, 2021-03-09 Technology scholars declare an emergency attention must be paid to the inequality marginalization and biases woven into our technological systems This book sounds an alarm we can no longer afford to be lulled into complacency by narratives of techno utopianism or even techno neutrality We should not be reassured by such soothing generalities as human error virtual reality or the cloud We need to realize that nothing is virtual everything that happens online virtually or autonomously happens offline first and often involves human beings whose labor is deliberately kept invisible Everything is IRL In Your Computer Is on Fire technology scholars train a spotlight on the inequality marginalization and biases woven into our technological systems
