**Artificial Intelligence in Music and Audio Production** Thomas Foster, 2025-04-07 In a time when artificial intelligence AI is becoming increasingly integrated into music production Artificial Intelligence in Music and Audio Production provides a comprehensive and easy to understand overview of the latest developments Artificial Intelligence in Music and Audio Production begins by explaining how AI is already being used in various areas of music production today from composition and sound design to mixing mastering and creating music videos Practical guides and examples show how anyone can benefit from these new technologies Whether it's about generating synthetic vocals transforming your own voice or creating complete songs using text prompts the possibilities are almost limitless Artificial Intelligence in Music and Audio Production demonstrates to musicians and producers how AI can allow musicians and producers to realize their ideas faster and in more comprehensive ways ultimately enriching their creative process This book will be of interest to singers DJs music producers and anyone interested in the future of music even without a deep technical background

**Empire of AI** Karen Hao, 2025-05-20 A NEW YORK TIMES BESTSELLER An eye opening account of the tech arms race shaping our planet from an award winning journalist and AI insider to the world of Sam Altman and OpenAI When longtime AI expert and journalist Karen Hao first began covering OpenAI in 2019 she thought they were the good guys Founded as a nonprofit with safety enshrined as its core mission it was meant its leader Sam Altman told us to act as a check against more purely market forces But the core truth of this massively disruptive sector is that it requires an unprecedented amount of proprietary resources the compute power of scarce high end chips the sheer volume of data that needs to be amassed at scale the humans on the ground cleaning it up for sweatshop wages throughout the Global South and a truly alarming spike in the need for energy and water underlying everything We have entered a new ominous age of empire with OpenAI setting a breakneck pace as a small group of the most valuable companies in human history try to chase it down In exhilarating prose and with unparalleled access to those closest to Sam Altman Hao recounts the meteoric rise of OpenAI and shows us the sinister impact that this industry is having on society

**Panic Now?** Ira Allen, 2024-06-11 When was the best time to panic about the varying crises facing humanity Twenty years ago But the next best time Now In line with other considerations of what we have come to call the Anthropocene in Panic Now Tools for Humanizing Ira J Allen takes the reader on a journey through difficult feelings about the various crises facing humanity and from there to new ways of facing impending dread with a sense of empowerment The interrelated threats of climate collapse an artificial intelligence revolution a sixth mass extinction a novel chemical crisis and more are all brought to us by what Allen describes as CaCaCo the carbon capitalism colonialism assemblage After suggesting that it is absolutely time to panic he asks how do we manage to panic productively Admitting there is no one script for everyone to follow the author traces how we might adopt attitudes and practices that allow us to move through this liminal space between fear and action collectively This book is a master class in how to create better more

humanizing outcomes by confronting the panic that goes along with the realization that the world as we know it is ending Rather than remaining mentally emotionally imaginatively and practically stuck in this historical condition Allen invites us to a very particular action oriented mode of panic which can indeed incite our imaginations to move from panic to empowerment
