*Policing Major Events* James F. Albrecht, Martha Christine Dow, Darryl Plecas, Dilip K. Das, 2014-11-20 Whenever a major event requires police intervention questions are raised about the nature of the police response Could the police have prevented the conflict been better prepared reacted more quickly Could they have acted more forcefully or brought the altercation under control more effectively Based upon real case studies of events from all over the world this volume explores the complex set of factors comprising the policing of major events Topics covered include Police procedures in Serbia in response to sporting events and violence The 2010 World Cup in South Africa as a model of best practice in governance structures along with the region's struggles in routine policing initiatives Security operations at the 2010 Winter Olympic Games in Canada and the Summer Olympic and Paralympic Games in London in 2012 Community involvement to curb terrorist insurgency in North Eastern Nigeria Governmental response to Hurricane Katrina in Louisiana and Texas Revisions made to NYPD protocols following the September 11 attacks Policing strategies for major events on Aboriginal and tribal lands across Canada Other topics include the police protestor relationship and low profile versus high profile policing strategies in crowd control the growing strategy of private security in working with public police forces and enhancing public safety in post conflict regions The concepts presented in *Policing Major Events Perspectives from Around the World* will enable police departments to improve their readiness for policing major events across a diverse set of events and socio political contexts This book is a co publication with the International Police Executive Symposium

*Law Enforcement in the Age of Black Lives Matter* Dwayne A. Mack, Sandra E. Weissinger, 2017-12-29 There is a reason why people claim great respect for officers of the law the job by description is hard if not deadly It takes a certain kind of person to accept the consequences of the job seeing the very worst situations on a regular basis and knowing that one's life is on the line every hour of every day Working in law enforcement is emotionally and psychologically draining It affects these public servants both on and off the job Said plainly shaking an officers hand when you see them or posting a sign in the front yard that reads Support the Badge is lip service Even going as far as to donate money to a crowdsourcing fundraising site does little to support the long term professional development needs of officers These are surface level signs of solidarity and do little in terms of showing respect for the job and those who do it For those who want to do more this text provides reasons and a rationale for doing better by these public servants Showing respect does not mean that one agrees with whatever another person or institution claims to be the right way Showing respect and admiration means that we charge individuals to live up to their fullest potentials and integrate innovation wherever possible In the case of policing in the era of Black Lives Matters policing as usual simply is not an option any longer It is disrespectful to both the officers and those who

are being policed to rest on the laurels of past policing tactics As we enter a time period in which police interactions are recorded dash cams or body cams for example and new populations are being targeted Latinx people there is much to learn about what is working and what is not    **UC Irvine Law Review** ,2013    University of Pennsylvania Law Review ,2014

**Misdemeanorland** Issa Kohler-Hausmann,2018-04-03 An in depth look at the consequences of New York City's dramatically expanded policing of low level offenses Felony conviction and mass incarceration attract considerable media attention these days yet the most common criminal justice encounters are for misdemeanors not felonies and the most common outcome is not prison In the early 1990s New York City launched an initiative under the banner of Broken Windows policing to dramatically expand enforcement against low level offenses Misdemeanorland is the first book to document the fates of the hundreds of thousands of people hauled into lower criminal courts as part of this policing experiment Drawing on three years of fieldwork inside and outside of the courtroom in depth interviews and analysis of trends in arrests and dispositions of misdemeanors going back three decades Issa Kohler Hausmann argues that lower courts have largely abandoned the adjudicative model of criminal law administration in which questions of factual guilt and legal punishment drive case outcomes Due to the sheer volume of arrests lower courts have adopted a managerial model and the implications are troubling Kohler Hausmann shows how significant volumes of people are marked tested and subjected to surveillance and control even though about half the cases result in some form of legal dismissal She describes in harrowing detail how the reach of America's penal state extends well beyond the shocking numbers of people incarcerated in prisons or stigmatized by a felony conviction Revealing and innovative Misdemeanorland shows how the lower reaches of our criminal justice system operate as a form of social control and surveillance often without adjudicating cases or imposing formal punishment
