As a digital marketer and doctor of philosophy in psychology she brings both practical and academic insights to explain the psychology behind scarcity why it has such an immense impact on decision making and how used correctly and ethically it can influence the people who buy your products or services. In these pages you'll gain a deeper understanding of why and how scarcity works in business and specifically how different types of scarcity messages supply related demand related time related or limited edition affect our brains. You'll see it in action from multiple perspectives through case studies research findings and eye opening interviews with current and former executives from brands that include McDonald's Harry David and 1 800 Flowers as well as real life customers' firsthand experiences.
