Chohan, 2025-01-16 This book offers a self reflective critical approach to the study of what is popularly known as polyglossia charting the gradual but marked process of its commoditization over the last 20 years and offering a counterpoint to mainstream positivist treatment of serial language learning First from a diagnostic standpoint the book examines the rise and consolidation of the Polyglot Community in the sociopolitical and economic context of its gradual

transformation into and partial overlap with the Polyglot Industry and its ideological tenets the Polyglot Matrix Second from a prognostic standpoint the book posits Critical Polyglot Studies CPS as a much needed counter to the many theoretical and practical shortcomings of the Polyglot Industry cum Matrix presenting the main programmatic points and illustrative best practices and institutional case studies of this alternative paradigm CPS is conceived as both a research orientation and as a strategic attempt to elicit debate and draw in a wider range of polyglossia scholars offering readers with actionable tools to contribute to this emerging academic and activist endeavor Constituting the first critical and systematic analysis of polyglossia as a globalized phenomenon this book will be of interest to scholars of linguistics cultural studies critical theory and sociology Chapter 3 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution NonCommercial NoDerivatives CC BY NC ND 4.0 International license
