*Blue Carbon Mangrove Ecosystems* Miguel Clüsener-Godt,Hiroyuki Matsuda,Benno Böer,Ronald A. Loughland,2024-10-14 Blue carbon ecosystems are of tremendous value toward the utilization of high salinity water such as seawater as well as hyper saline soils and salt tolerant biota for the production of biomass for food feed fiber fuel other economic purposes and carbon sequestration In order to achieve the 17 SDGs the scientific research into blue carbon ecosystems is an absolutely important element Moreover monitoring is needed as well as the conservation of the remaining blue carbon ecosystems and the restoration of lost habitat The book will provide comprehensive scientific documentation inspiring the way forward on how to utilize saline resources in the best interest of humanity It will try to foster the academic research and networking for land users politicians development banks innovative farmers investors energy producers and carbon off setters The papers presented in this book emanate from a conference held at the Yokohama National University Japan in January 2023

*Sustainable Happy Profit* Ines Garcia,2021-10-22 Reviews In the book Ines sets out the new path for businesses to follow to create workplaces of our future She dives into the science behind each of these three business imperatives and follows this up with clear ABC s and CBA s on how to make the shift starting right now Create real sustainable change in their teams and organisations straight away Sarah Metcalfe Chief Happiness Officer Co Leader Woohoo Unlimited This book will challenge you to combine collaboration sustainability and emotional intelligence to create a better business Ines experience in innovation makes her the perfect to explore how thinking beyond profit alone can lead to more impact Meggie Palmer Founder PepTalkHer Fortune 500 Executive Coach Facilitator It is a complex but mandatory path full of challenges and in which at the moment we are all apprentices Hence the importance of this work to help the fundamental efforts to achieve a sustainable happy profit Wagner de Siqueira Pinto ESG Sustainability Corporate Social Responsibility Advisor About the Book What do a Brazilian bank a Spanish clothing company and a British cosmetics company have in common They are all proof that a business can be sustainable happy and profitable We ll explore exactly how those areas are intertwined and how they serve to enhance and encourage each other by looking at plenty more real life examples across a range of sectors and organisations Unlike other books which simply tell you that you MUST be these things this book will also tell you HOW to do it Each section contains practical ideas you can implement immediately whatever your role realistically considered and fully resourced

**The Impact of Automatic Control Research on Industrial Innovation** Silvia Mastellone,Alex van Delft,2023-12-27 The Impact of Automatic Control Research on Industrial Innovation Bring together the theory and practice of control research with this innovative overview Automatic control research focuses on subjects pertaining to the theory and practice of automation science and technology subjects such as industrial automation robotics and human machine interaction With each passing year these subjects become more relevant to researchers policymakers industrialists and workers alike The work of academic control researchers however is often

distant from the perspectives of industry practitioners creating the potential for insights to be lost on both sides The Impact of Automatic Control Research on Industrial Innovation seeks to close this distance providing an industrial perspective on the future of control research It seeks to outline the possible and ongoing impacts of automatic control technologies across a range of industries enabling readers to understand the connection between theory and practice The result is a book that combines scholarly and practical understandings of industrial innovations and their possible role in building a sustainable world The Impact of Automatic Control Research on Industrial Innovation readers will also find Insights on industrial and commercial applications of automatic control theory Detailed discussion of industrial sectors including power automotive production processes and more An applied research roadmap for each sector This book is a must own for both control researchers and control engineers in both theoretical and applied contexts as well as for graduate or continuing education courses on control theory and practice Editorial board Silvia Mastellone University of Applied Science Northwestern Switzerland Alex van Delft vanDelft it DSM Tariq Samad University of Minnesota Iven Mareels Federation University Australia IBM Scott Bortoff Mitsubishi Electric Research Labs Stefano Di Cairano Mitsubishi Electric Research Labs Alisa Rupenyan ETHZ
