Chappell, 2004-10-14 In recent decades the revival of natural law theory in modern moral philosophy has been an exciting and important development Human Values brings together an international group of moral philosophers who in various respects share the aims and ideals of natural law ethics In their diverse ways these authors make distinctive and original contributions to the continuing project of developing natural law ethics as a comprehensive treatment of modern ethical theory and practice *New Essays on Adam Smith's Moral Philosophy* David B. Suits, 2012 *Ethics Beyond the Limits* Sophie Grace Chappell, Marcel van Ackeren, 2018-12-07 Bernard Williams *Ethics and the Limits of Philosophy* is widely regarded as one of the most important works of moral philosophy in the last fifty years Williams's powerful sceptical critique of the morality system sent shockwaves through philosophy the implications of which are still being reckoned with thirty years later In this outstanding collection of new essays fourteen internationally recognised philosophers examine the enduring contribution that Williams's book continues to make to ethics After a detailed topical summary of *Ethics and the Limits of Philosophy* by Adrian Moore the full scope of the work is assessed including the role of Aristotle and Hume in Williams thought and his arguments concerning the history of philosophy the nature of virtue the good life practical reason and deliberation and the themes of duty blame and inauthenticity *Ethics Beyond the Limits* is required reading for students and researchers in ethics metaethics and moral psychology and highly recommended for anyone studying the work of Bernard Williams **The Nature of Moral Responsibility** Randolph Clarke, Michael McKenna, Angela M. Smith, 2015-04-01 What is it to be morally responsible for something Recent philosophical work reveals considerable disagreement on the question Indeed some theorists claim to distinguish several varieties of moral responsibility with different conditions that must be satisfied if one is to bear responsibility of one or another of these kinds Debate on this point turns partly on disagreement about the kinds of responses made appropriate when one is blameworthy or praiseworthy It is generally agreed that these include reactive attitudes such as resentment and gratitude but theorists disagree about the nature of these attitudes They dispute the connections between moral responsibility desert and the justification of punishment as well Many theorists take it that whatever the appropriate responses are they are responses to an agent's quality of will but there is no consensus on what this comes to Are the agent's beliefs about the moral status of her behavior what matter or is it what she cares about or what she judges important This volume presents twelve original essays from participants in these debates The contributors include prominent established figures as well as influential younger philosophers A substantive introduction by the editors surveys recent debates and situates the contributions within it *The Grammar of the Heart* Richard H. Bell, 1988 **Spheres of Reason** Simon Robertson, 2009-10 *Spheres of Reason* comprises nine new articles on normativity They make a timely and distinctive contribution to our understanding of how normative

thought may or may not be unified across the spheres of actions belief and feeling It is essential reading for anyone interested in the nature of normativity and the bearing it has on human thought **Developing Deontology** Brad Hooker,2012-02-23 Developing Deontology consists of six new essays in ethical theory by leading contemporary moral philosophers Each essay considers concepts prominent in the development of deontological approaches to ethics and these essays offer an invaluable contribution to that development Essays are contributed by Michael Smith Philip Stratton Lake Ralph Wedgewood David Owens Peter Vallentyne and Elizabeth Harman all leading contemporary moral philosophers Each essay offers an original and previously unpublished contribution to the subject A significant addition to the field for anyone with an interest in the development of deontology The collection is edited by a leading philosophical scholar **New Essays in the Philosophy of Education (International Library of the Philosophy of Education Volume 13)** Glenn Langford,D.J. O'Connor,2010-02-25 This volume includes discussions on the concept of education and such related topics as indoctrination and the nature and scope of the theory of education **Spheres of Reason: New Essays in the Philosophy of Normativity** Simon Robertson,2009-10-01 Spheres of Reason comprises nine original essays on the philosophy of normativity written by a combination of internationally renowned and up and coming philosophers working at the forefront of the topic On one broad construal the normative sphere concerns norms requirements oughts reasons reasoning rationality justification value These notions play a central role in both everyday thought and philosophical enquiry but there remains considerable disagreement about how to understand normativity its nature metaphysical and epistemological bases and how different aspects of normative thought connect to one another As well as exploring traditional and ongoing issues central to our understanding of normativity especially those concerning reasons reasoning and rationality the volume s essays develop new approaches to and perspectives in the field Notably they make a timely and distinctive contribution to normativity as it features across each of the practical epistemic and affective regions of thought including the important issue of how normativity as it applies to action belief and feeling may or may not be connected In doing so the essays engage topics within the philosophy of mind and action epistemology normative ethics and metaethics With an editor s introduction providing a comprehensive and accessible background to the subject Spheres of Reason is essential reading to anyone interested in the nature of normativity and the bearing it has on human thought *Making Sense of the World* Stephen Robert Grimm,2018 Making Sense of the World offers original work on the nature of understanding by a range of distinguished philosophers Although some of the essays are by scholars well known for their work on understanding many of the essays bring entirely new figures to the discussion The main purpose of the volume is twofold to advance debates in epistemology and the philosophy of science where work on understanding has recently flourished and to jumpstart new questions and debates about understanding in other areas of philosophy such as aesthetics ethics and the philosophy of religion *Dimensions of Normativity* David Plunkett,Scott Shapiro,Kevin Toh,2019 This text collects together new essays by moral and legal

philosophers that are aimed at knocking down a disciplinary wall that divides contemporary philosophical thinking about the nature of morality and contemporary philosophical thinking about the nature of law **Responsibility, Character, and the Emotions** Ferdinand David Schoeman,1987 An examination of the responsibility individuals have for their actions and characters *On the Relevance of Metaethics* Jocelyne Couture,Kai Nielsen,1996 In this collection of original essays on metaethics the nature of morality and the structure of moral reasoning are characterized the limits of justification in ethics are examined and the underlying rationale of moral philosophy is probed Around mid century metaethics held centre stage in discussions of moral philosophy in Anglo American and Scandinavian philosophical environments During the 1970s its foundational position was challenged by developments within analytic philosophy itself by a renewal of systematic substantive ethics largely but not exclusively of a Rawlsian inspiration and by a reinvigorated interest in substantive moral problems on the part of philosophers However as work went on here philosophers encountered problems concerning the methods of moral reasoning and the structure of justification of moral claims that were recognized to be metaethical This led to a renewal of metaethics now freed from its previously narrow linguistic focus and aprioristic restrictions The essays in this volume contribute both to this renewal and to a continued skeptical probing of the very rationale of moral philosophy

Thomas Reid and the Defence of Duty James Foster,2024-03-05 Is morality a subjective matter dependent on our desires and interests or are there objective moral truths And if the latter can we explain the objectivity of morality without appeal to metaphysics a robust teleology or divine command This book argues that we find just such an account of moral objectivity in Thomas Reid s defence of duty To make this case this book provides an explanation of Reid s way of philosophy and his reasons for rejecting moral subjectivism presents Reid s account of the concept perception and motivational force of duty and responds to contemporary challenges of moral subjectivism and moral pessimism from the perspective of his moral philosophy Further this book argues that if Reid is correct then there is an urgent need to reform current pedagogical practice and return to the teaching of practical ethics *Christian Wolff's German Ethics* Sonja Schierbaum,Michael Walschots,John Walsh,2024 This volume offers a collective exploration of the moral philosophy of Christian Wolff one of the great philosophers of the 18th century The contributors discuss major themes in Wolff s *German Ethics* of 1720 showing the importance of this work within the history of ethics and its continuing interest today **Realism and Antirealism in**

Kant's Moral Philosophy Robinson dos Santos,Elke Elisabeth Schmidt,2017-12-18 The debate between moral realism and antirealism plays an important role in contemporary metaethics as well as in the interpretation of Kant s moral philosophy This volume aims to clarify whether and in what sense Kant is a moral realist an antirealist or something in between Based on an explication of the key metaethical terms internationally recognized Kant scholars discuss the question of how Kant s moral philosophy should be understood in this regard All camps in the metaethical field have their inhabitants Some contributors read Kant s philosophy in terms of a more or less robust moral realism objectivism or idealism and some of them

take it to be a version of constructivism constitutionism or brute antirealism In any case all authors introduce and defend their terminology in a clear manner and argue thoughtfully and refreshingly for their positions With contributions of Stefano Bacin Jochen Bojanowski Christoph Horn Patrick Kain Lara Ostaric Fred Rauscher Oliver Sensen Elke Schmidt Dieter Schaecker and Melissa Zinkin *Love's Knowledge* Martha C. Nussbaum, 1992-04-02 This volume brings together Nussbaum's published papers on the relationship between literature and philosophy especially moral philosophy The papers many of them previously inaccessible to non specialist readers deal with such fundamental issues as the relationship between style and content in the exploration of ethical issues the nature of ethical attention and ethical knowledge and their relationship to written forms and styles and the role of the emotions in deliberation and self knowledge Nussbaum investigates and defends a conception of ethical understanding which involves emotional as well as intellectual activity and which gives a certain type of priority to the perception of particular people and situations rather than to abstract rules She argues that this ethical conception cannot be completely and appropriately stated without turning to forms of writing usually considered literary rather than philosophical It is consequently necessary to broaden our conception of moral philosophy in order to include these forms Featuring two new essays and revised versions of several previously published essays this collection attempts to articulate the relationship within such a broader ethical inquiry between literary and more abstractly theoretical elements
