New Humanitarians International Practice Humanitarian:

The New Humanitarians in International Practice Zeynep Sezgin,Dennis Dijkzeul,2015-12-14 As humanitarian needs continue to grow rapidly humanitarian action has become more contested with new actors entering the field to address unmet needs but also challenging long held principles and precepts This volume provides detailed empirical comparisons between emerging and traditional humanitarian actors It sheds light on why and how the emerging actors engage in humanitarian crises and how their activities are carried out and perceived in their transnational organizational environment It develops and applies a conceptual framework that fosters research on humanitarian actors and the humanitarian principles In particular it simultaneously refers to theories of organizational sociology and international relations to identify both the structural and the situational factors that influence the motivations aims and activities of these actors and their different levels of commitment to the traditional humanitarian principles It thus elucidates the role of the humanitarian principles in promoting coherence and coordination in the crowded and diverse world of humanitarian action and discusses whether alternative principles and parallel humanitarian systems are in the making This volume will be of great interest to postgraduate students and scholars in humanitarian studies globalization and transnationalism research organizational sociology international relations development studies and migration and diaspora studies as well as policy makers and practitioners engaged in humanitarian action development cooperation and migration issues

Humanitarianism and Challenges of Cooperation

Volker Heins,Kai Koddenbrock,Christine Unrau,2016-02-05 Humanitarianism as a moral concept and an organized practice has become a major factor in world society It channels an enormous amount of resources and serves as an argument for different kinds of interference into the internal affairs of countries and regions At the same time and for these very reasons it is an ideal testing ground for successful and unsuccessful cooperation across borders Humanitarianism and the Challenges of Cooperation examines the multiple humanitarianisms of today as a testing ground for new ways of global cooperation General trends in the contemporary transformation of humanitarianism are studied and individual cases of how humanitarian actors cooperate with others on the ground are investigated This book offers a highly innovative empirically informed account of global humanitarianism from the point of view of cooperation research in which internationally renowned contributors analyse broad trends and present case studies based on meticulous fieldwork This book will be of great interest to students and researchers in the areas of political science international relations and humanitarianism It is also a valuable resource for humanitarian aid workers

Humanitarianism from Below Alejandro Olayo-Méndez,2025-08-05

Challenges the definition of humanitarian aid Aside from being one of the most important migration corridors in the world Mexico is becoming an immigrant destination itself with more and more migrants deciding or needing to stay in the country after failing to enter the United States In the absence of state aid migrant shelters have emerged as an informal welfare system for migrants asylum seekers refugees and deportees in Mexico Largely run by faith

based humanitarian organizations these shelters have grown significantly in recent years Humanitarianism from Below examines the significance of these casas de migrantes migrant shelters in the migration process in Mexico The book also reviews the role of faith based humanitarian organizations whose engagement with migrants is perceived more as charity work than professional humanitarian work The volume argues that faith based humanitarian organizations work challenges traditional understandings of what counts as humanitarian aid It makes the case that in order to understand the full ecology of migration we need to understand not only how large organizations like the Red Cross work but also how these smaller and local entities with fewer resources interact with migrants on their journeys Most migration research tends to focus on its impact within home countries or in destination contexts rarely focusing on the actual migration process including the interactions that influence the course of the migration journey itself In conducting this research Alejandro Olayo M ndez traveled along migrant routes several times in order to gain knowledge about how migrants move and how they interact with the migrant shelters He offers a detailed look at the experiences and challenges of casas de migrantes in Mexico situating these faith based shelters as an integral part of Mexico s humanitarian ecosystem *Hierarchies and exclusion in humanitarianism* Clara Egger,2025-06-24 While humanitarians generally present themselves as do gooders and use this image to gather support and funding this edited volume addresses hierarchies and exclusions in humanitarianism an issue that has gained increased attention Contributions analyse how hierarchies power asymmetries and exclusion emerge are maintained and can ultimately be challenged in humanitarian governance Leading scholars on humanitarianism coming from a variety of disciplinary fields such as international relations philosophy organisational science and management and sociology analyse exclusion dynamics at the individual organisational and structural levels Authors thereby combine data from a diverse range of methods including ethnography survey and statistical analysis The volume informs current efforts to increase inclusiveness and equity in humanitarian practice **Yearbook of International Organizations 2014-2015**

(Volume 4) Union Of International Associations,Union of International Associations,2014-09-17 The Yearbook of International Organizations provides the most extensive coverage of non profit international organizations currently available Detailed profiles of international non governmental and intergovernmental organizations IGO collected and documented by the Union of International Associations can be found here In addition to the history aims and acitvities of international organizations with their events publications and contact details the volumes of the Yearbook include networks between associations biographies of key people involved and extensive statistical data Providing both an international organizations and research bibliography Volume 4 cites over 46 000 publications and information resources supplied by international organizations and provides nearly 18 000 research citations under 40 subject headings This volume also includes a research bibliography on international organizations and transnational associations **New Humanitarianism and the Crisis of Charity** Michael Mascarenhas,2017-05-22 An excellent addition to courses on development inequality public policy and

globalization and it could be read by an audience beyond sociologists American Journal of Sociology Soaring poverty levels and 24 hour media coverage of global disasters have caused a surge in the number of international non governmental organizations that address suffering on a massive scale But how are these new global networks transforming the politics and power dynamics of humanitarian policy and practice In *New Humanitarianism and the Crisis of Charity* Michael Mascarenhas considers that issue using water management projects in India and Rwanda as case studies Mascarenhas analyzes the complex web of agreements both formal and informal that are made between businesses governments and aid organizations as well as the contradictions that arise when capitalism meets humanitarianism Insightful provides a scathing critique of the new humanitarianism University of Chicago Press Journals

The Ethics of Global Governance Antonio

Franceschet,2009 Ethics is treated in this book not as a set of rules nor as a topic for philosophical discussion but as a necessary aspect of political life The authors analyse ethical controversies as central to global governance considering the hard moral choices facing states and other actors as they navigate a complex world order

Humanitarian Action and Terrorism : Ingrid A. Macdonald,2017-11-15 The proliferation of designated terrorist groups in majority Muslim countries has greatly affected civilian populations Humanitarian workers and assets have been targeted by terrorist groups through the use of violent methods This study addresses the state of observable perceptions towards humanitarian organisations and workers among local populations It concludes by proposing the humanitarian cube which is a dynamic new tool for

strengthening understanding and actions in response to local perceptions *American Foreign Policy 01/02* Glenn P. Hastedt,2000-12 A compilation of articles from newspapers magazines and journals that cover issues relating to the US and the world Topics include strategic choices regional and bilateral relations and American foreign policy

Beyond the New Public Management Martin Minogue,Charles

Polidano,David Hulme,1998 This text brings together a number of specialists who examine the range of ideas and concepts of the new models of reform paying particular attention to the new public management model and to strategies of good governance It evaluates progress made by governments and aid donors in putting these ideas into practice Using case studies from both the developed and developing world it emphasizes the extent to which public management and governance reforms are being applied throughout the international arena The examples used focus on the problems of policy and institutional transfers between the industrialized world and developing countries Multidisciplinary in its approach it draws on literature and research from management studies political science sociology economics and development studies and points to issues likely to dominate research agenda

The Practice of Humanitarian Intervention Kai Koddenbrock,2015-08-27

This book examines the practices in Western and local spheres of humanitarian intervention and shows how the divide between these spheres helps to perpetuate Western involvement Using the Democratic Republic of the Congo as a case study

an object of Western intervention since colonial times this book scrutinizes the contemporary practice of humanitarian intervention from the inside It seeks to expose how humanitarian aid and peacekeeping works what obstacles they encounter and how they manage to retain their legitimacy By examining the relationship between the West and the DR Congo this volume asks why intervention continues to be so central for the relationship between Western and local spheres Why is it normal and self evident The main answer developed here is that the separation of these two spheres allows intervention to enjoy sufficient degrees of legitimacy to be sustained Owing to the contradictions that surface when juxtaposing the Western and Congolese spheres this book highlights how keeping them separate is key to sustaining intervention Bridging the divide between the liberal peace debate in International Relations and anthropologies of humanitarianism this volume thus presents an important contribution to taking both the legitimizing proclamations and local realities of intervention seriously The book will be of much interest to students of statebuilding peacebuilding peacekeeping anthropology research methods and IR in general

Humanitarian Protection Simon Robins, Majida Rasul, 2015-04-30 This volume takes a humanitarian perspective to protection in conflicts and seeks to introduce the what and the how of doing protection work and the impact of the new humanitarian politics on its practice Humanitarian protection lies at the heart of the new prominence of humanitarian action protection of civilians is now used by different actors to mean both the traditional use of international law to ensure persons are protected and military intervention to protect civilians from their own state Literature around the new humanitarianism and the Responsibility to Protect R2P has abounded as the political use of protection narratives has driven interventions in a number of states and with a range of outcomes The work of humanitarian protection has largely continued in conflict natural disaster and complex emergencies with humanitarians risking their lives to ensure the rights and dignity of the vulnerable Such work has however inspired almost no literature academic or otherwise Even as becoming a humanitarian worker has become a career path facilitated by a plethora of graduate courses there is a dearth of sources of information informed by both theory and practice that can navigate the new politics of humanitarian action This textbook can be used on courses that focus on preparing humanitarian and human rights professionals and also aims to also be a source to which field workers can turn for a theoretical perspective and overview of practice relevant to their own work It emphasises humanitarian protection over assistance because developments that have seen human rights based approaches politicise traditional neutral and impartial perspectives are most salient in this arena It surveys bodies of international law that form the normative basis of humanitarian action but aims not to be legal text rather using law to set the frame for the practice of protection work In the spirit of practical relevance it discusses in detail the modalities of protection work and engages with the very concrete impacts that the political instrumentalisation of humanitarianism has had on humanitarians The book also discusses how the violations that protection work seeks to prevent have become the focus of a global justice project towards which humanitarians always witness to atrocity must take a position It concludes with a critical discussion of the impact on

protection work of the new military humanitarianism and R2P This book will be of much interest to students of humanitarian protection assistance the Responsibility to Protect peace and conflict studies development studies human rights and security studies as well as practitioners in the field ven as becoming a humanitarian worker has become a career path facilitated by a plethora of graduate courses there is a dearth of sources of information informed by both theory and practice that can navigate the new politics of humanitarian action This textbook can be used on courses that focus on preparing humanitarian and human rights professionals and also aims to also be a source to which field workers can turn for a theoretical perspective and overview of practice relevant to their own work It emphasises humanitarian protection over assistance because developments that have seen human rights based approaches politicise traditional neutral and impartial perspectives are most salient in this arena It surveys bodies of international law that form the normative basis of humanitarian action but aims not to be legal text rather using law to set the frame for the practice of protection work In the spirit of practical relevance it discusses in detail the modalities of protection work and engages with the very concrete impacts that the political instrumentalisation of humanitarianism has had on humanitarians The book also discusses how the violations that protection work seeks to prevent have become the focus of a global justice project towards which humanitarians always witnesses to atrocity must take a position It concludes with a critical discussion of the impact on protection work of the new military humanitarianism and R2P This book will be of much interest to students of humanitarian protection assistance the Responsibility to Protect peace and conflict studies development studies human rights and security studies as well as practitioners in the field e modalities of protection work and engages with the very concrete impacts that the political instrumentalisation of humanitarianism has had on humanitarians The book also discusses how the violations that protection work seeks to prevent have become the focus of a global justice project towards which humanitarians always witnesses to atrocity must take a position It concludes with a critical discussion of the impact on protection work of the new military humanitarianism and R2P This book will be of much interest to students of humanitarian protection assistance the Responsibility to Protect peace and conflict studies development studies human rights and security studies as well as practitioners in the field *Reinventing Development?* Paul Gready, Jonathan Ensor, 2005 This volume provides an assessment of human rights based approaches to development *International Journal of Ethics*, 1892 *From Kosovo to Kabul* David Chandler, 2002 Having written widely about human rights and international relations Chandler does not here attempt a history of them or their interrelationship Rather he analyzes why the ethical agenda of human rights has become widely accepted since 1990 and indicates areas in which there appear to be limitations or at least important questions over the implications of this shift in approach Distributed in the US by Stylus Annotation copyrighted by Book News Inc Portland OR *The State of the World's Refugees 2012* Office of the United Nations High Commissioner for Refugees, 2012-05-31 This publication provides an accessible overview of key developments related to internal and cross border displacement of

Humanitarianism Tim Allen,Anna Macdonald,Henry Radice,2018-06-27 The field of humanitarianism is characterised by profound uncertainty by a constant need to respond to the unpredictable and by concepts and practices that often defy simple or straightforward explanation Humanitarians often find themselves not just engaged in the pursuit of effective action but also in a quest for meaning That is the starting point for this book Humanitarian action has in recent years confronted geopolitical challenges that have upended much of its conventional modus operandi and presented threats to its foundational assumptions and legal frameworks The critical interrogation of the purpose practice and future of humanitarian action has yielded a rich new field of enquiry humanitarian studies and many thoughtful books articles and reports So the question arose as to the most useful way to provide a critical overview that might serve to bring some definitional clarity as well as analytical rigor to the waves of critique and shifting sands of humanitarian action Humanitarianism A Dictionary of Concepts provides an authoritative analysis that attempts to rethink rather than merely problematize or define the issues at stake in contemporary humanitarian debates It is an important moment to do so Just about every tenet of humanitarianism is currently open to question as never before
