Nevada Imogen Binnie, 2022-06-09 Maria a trans woman in her thirties is going nowhere She spends her aimless days working in a New York bookstore trying to remain true to a punk ethos while drinking herself into a stupor and having a variety of listless and confusing sexual encounters After her girlfriend cheats on her Maria steals her car and heads for the Pacific embarking on her version of the Great American Road Trip Along the way she stops in Reno Nevada and meets James a young man who works in the local Wal Mart Maria recognizes elements of her younger self in James and the pair quickly form an unlikely but powerful connection one that will have big implications for them both Nevada is a hilarious groundbreaking cult classic from Imogen Binnie that inspired a whole literary movement and is now published in the UK for the very first time Part of the Picador Collection a new series showcasing the best of modern literature *Nevada* Imogen Binnie, 2022-06-07 A beloved and blistering cult classic finally back in print Nevada follows a disaffected trans woman as she embarks on a cross country road trip Unbound Queer Time in Literature, Cinema, and Video Games Juan Francisco Belmonte Ávila, Estíbaliz Encarnación-Pinedo, 2024-07-19 Unbound Queer Time in Literature Cinema and Video Games investigates the potential of queer conceptions of time to unbind forms of understanding identities In doing so it recognizes the power of time to determine us but chooses to queer time and turn it into an ally of unbound forms of understanding identities Through the analysis of different media literature cinema and video games the chapters revolve around three key ideas that there are inherently queer styles of using and dealing with time and temporality in culture that the critical rediscovery of canonical texts and the analysis of largely ignored queer texts and authors allow for a better understanding of queer identities and finally that normative conceptions of time can and should be challenged through critical tools that reconceptualize notions of the self around time This volume will be of interest to postgraduate students and researchers working close to areas such as queer and gender studies media and cinema studies cultural studies literary theory comparative literature game studies and art history **Transformed States** Martin Halliwell, 2024-11-15 Honourable Mention British Association of American Studies Book Award Transformed States offers a timely history of the politics ethics medical applications and cultural representations of the biotechnological revolution from the Human Genome Project to the COVID 19 pandemic In exploring the entanglements of mental and physical health in an age of biotechnology it views the post Cold War 1990s as the horizon for understanding the intersection of technoscience and culture in the early twenty first century The book draws on original research spanning the presidencies of George H W Bush and Joe Biden to show how the politics of science and technology shape the medical uses of biotechnology Some of these technologies reveal fierce ideological conflicts in the arenas of cloning reproduction artificial intelligence longevity gender affirmation vaccination and environmental health Interweaving politics and culture the book illustrates how these health issues are reflected in and challenged by literary and cinematic texts from Oryx and Crake to Annihilation and from Gattaca to Avatar By assessing the

complex relationship between federal politics and the biomedical industry Transformed States develops an ecological approach to public health that moves beyond tensions between state governance and private enterprise To that end Martin Halliwell analyzes thirty years that radically transformed American science medicine and policy positioning biotechnology in dialogue with fears and fantasies about an emerging future in which health is ever more contested Along with the two earlier books Therapeutic Revolutions 2013 and Voices of Mental Health 2017 Transformed States is the final volume of a landmark cultural and intellectual history of mental health in the United States journeying from the combat zones of World War II to the global emergency of COVID 19 *The Cambridge Companion to American Literature and the Body* Travis M.
