Infant Care and Motherhood in an Urban Community John Newson,Elizabeth Newson,2017-07-12 Infant Care and Motherhood in an Urban Community investigates the behavior and attitudes of 709 mothers towards their year old babies John and Elizabeth Newson impatient with the voluminous and contradictory literature telling parents how their children should be brought up decided to find out how they were being brought up Infant Care in an Urban Community is focused on sources of advice that influence parents how they feel about their children and how they react to situations in handling young babies Infant handling today is still a subject on which many different specialists use the full weight of their professional authority to back up their private prejudices concerning what is good and what is bad in the care of young children In the face of the conflict which results intelligent parents are rapidly forced to the conclusion that the experts know little more about the matter than they do themselves The truth is that in the present state of knowledge there is not a sufficient body of well substantiated evidence about the facts and consequences of child rearing on which to base sound practical advice to parents This is where this book comes in It shows that much of the advice offered is often out of touch with the practical needs circumstances and beliefs of the ordinary mother Few theories of child rearing have been subjected to the inconvenience of being reconciled with the empirical evidence This is the first study which has obtained information of this sort from a large and representative sample of mothers and which has investigated the behavior of both mother and baby aehere and now rather than relying on fond maternal memories A special feature is the use of tape recorded interviews which has allowed extensive quotation of their mothers own opinions    Never Satisfied Infinity Xox,2016-01-23 Set in New Orleans Louisiana Never Satisfied is a story about envy and how it possesses the power to demolish anything standing in its path once one becomes consumed by it Twenty two year old Jasmine learns this lesson the hard way when her covetousness for the lavish life style of her best friend Kyrielle spirals out of control After being thrown from a life of comfort into one filled with despair she meets Kyrielle and takes her under her wing It isn t until several years later when Kyrielle becomes romantically involved with Nique a wealthy drug dealer that Jasmine develops an unhealthy jealousy of her With Jasmine s insatiable appetite for a life that isn t her own she won t let anything or anyone stop her from getting what she wants However just when she thinks she has reached the pinnacle of the status that she has underhandedly worked so hard to obtain she finds out that nothing is what it seems and ends up tangled in a huge web of deceit that results in bloodshed

*Sehrengiz, Urban Rituals and Deviant Sufi Mysticism in Ottoman Istanbul* B. Deniz Calis-Kural,2016-04-01 ehrengiz is an Ottoman genre of poetry written in honor of various cities and provincial towns of the Ottoman Empire from the early sixteenth century to the early eighteenth century This book examines the urban culture of Ottoman Istanbul through ehrengiz as the Ottoman space culture and traditions have been shaped by a constant struggle between conflicting groups practicing political and religious attitudes at odds By examining real and imaginary gardens landscapes and urban spaces

and associated ritualized traditions the book questions the formation of Ottoman space culture in relation to practices of orthodox and heterodox Islamic practices and imperial politics The study proposes that ehrengiz was a subtext for secret rituals performed in city spaces carrying dissident ideals of Melami mysticism following after the ideals of the thirteenth century Sufi philosopher Ibn al Arabi who proposed a theory of creative imagination and a three tiered definition of space the ideal the real and the intermediary barzakh In these rituals marginal groups of guilds emphasized the autonomy of individual self and suggested a novel proposition that the city shall become an intermediary space for reconciling the orthodox and heterodox worlds In the early eighteenth century liminal expressions of these marginal groups gave rise to new urban rituals this time adopted by the Ottoman court society and by affluent city dwellers and expressed in the poetry of Ned m The author traces how a tradition that had its roots in the early sixteenth century as a marginal protest movement evolved until the early eighteenth century as a movement of urban space reform     *The Palgrave Encyclopedia of Urban Literary Studies* Jeremy Tambling,2022-10-29 This encyclopaedia will be an indispensable resource and recourse for all who are thinking about cities and the urban and the relation of cities to literature and to ways of writing about cities Covering a vast terrain this work will include entries on theorists individual writers individual cities countries cities in relation to the arts film and music urban space pre early and modern cities concepts and movements and definitions amongst others Written by an international team of contributors this will be the first resource of its kind to pull together such a comprehensive overview of the field
