New Age Politics Our Only Real Alternative:

New Age Politics: Our Only Real Alternative Mark Satin, 2015-11-16 Forget the term New Age says Mark Satin in the introduction to this 40th Anniversary Edition of his book *New Age Politics* That term was tied to an historical moment What this book is really about is the new politics arising out of the social movements of our time among them the spiritual ecological feminist human potential and decentralist movements *New Age Politics* was the first book to show that these movements were producing a coherent new political perspective or ideology Today that perspective goes by many names green holistic radical centrist transformational transpartisan It has made many advances through movements as diverse as the Green Party Tea Party and Occupy But as futurist David Spangler points out in a new foreword the foundational statement of this still emerging new perspective was *New Age Politics* This new edition streamlined and updated for our time draws on nearly 200 texts and at least that many late night conversations with activists It is all here our drive for a life loving new consciousness and better values Our critique of deep monopolies like the private automobile and doctor dependent health care not just brand name monopolies Our vision of an all win future that empowers local communities and enhances global cooperation Our strategy that encompasses both inner work personal growth and outer work everything from electoral activity to nonviolent action that respects one's audiences Today *New Age Politics* is more relevant than ever In his foreword to the German edition systems thinker Fritjof Capra calls it the blueprint for a new politics beyond left and right and in his introduction Satin holds up this edition as a common ground on which all the real alternative movements of our time can stand Those who want to steer contemporary movements away from the twin shoals of Marxism and liberalism and toward a healing future that is uniquely their own will find this book especially useful *New Age Politics* Mark Ivor Satin, 1978 Stimulating inspirational Mark Satin does a good job of drawing together the best thinking of over 200 new age philosophers his vision of the future is tempered with some well thought out alternatives to our present way of doing things at 30 he's already miles ahead of the academics intellectuals who cling to the Marxist vision this book should probably have been written by a radical feminist Indeed I wish I had written it myself We had the roots of this thinking all along Makara a West Coast feminist magazine gift quality almost like new collectible copy **New Age Politics** Mark Ivor Satin, 1976 This book is about the new politics that is arising out of the ideas of the feminist men's liberation spiritual human potential ecology appropriate technology education reform and neopacifist movements of the 1970's and out of the ideas of disillusioned social scientists and political people who share these concerns Back cover *Sacred America, Sacred World* Stephen Dinan, 2016-07-05 Infused with visionary power *Sacred America Sacred World* is a manifesto for our country's evolution that is both political and deeply spiritual It offers profound hope that America can grow beyond our current challenges and manifest our noblest destiny which the book shows is rooted in sacred principles that transcend left or right political views Filled with practical ideas and innovative strategies honed from the author's work with over 1000 luminaries via his company

The Shift Network Sacred America Sacred World rings with a can do entrepreneurial spirit and explains how America can lead the world toward peace sustainability health and prosperity This vision of the future weaves the best of today s emergent spirituality with seasoned political wisdom demonstrating ways America can grow beyond its current stagnation and political gridlock to become a world leader in peace and progress Published to coincide with the party conventions and presidential debates this book will promote a return to the sacred principles cherished by America s forefathers in order to create a transpartisan non ideological pragmatic approach to social reform This uplifting discussion explores evolutions in political leadership environmental concerns and economic reformation It is time to forge a bold new image of America s future Here is a road map for getting there **Transforming Politics and Policy in the Digital Age** Bishop,
