

# New Holland Front-end Loaders For 30 Series & 35 Series Tractors

7309 7310

## Low-profile, high-lift front-end loaders

You'll like the low profile design and convenience of New Holland loaders. The quick-attach bucket system makes short work of changing buckets or other attachments. Just unlatch the bucket from either side of the loader, get on the tractor, and back away.

Hydraulic self-leveling is another feature you'll appreciate. It helps you keep material in the bucket as you lift.

### Model 7309 high-lift loader

The model 7309 loader fits all New Holland 30 Series 2WD tractors up to and including model 4630. The 7309

loader is a powerful performer with up to 2,500 pounds of lift capacity, and 4,600 pounds of bucket breakout, depending on the specific tractor model.

The low profile design gives the operator superior visibility. Standard lift height is 109 inches. If you need to go higher, the optional lift cylinder setting extends lift height to 122 inches.

### Model 7310 delivers all-round loader performance

The low profile model 7310 is perfect for all your loading or stockpiling needs. Lift height is a full 120 inches; dump

clearance 92 inches; lift capacity 2,685 pounds, and bucket breakout 4,905 pounds.

The 7310 is compatible with 30 Series and 35 Series New Holland tractors. Loader hydraulic power can be supplied directly from the tractor remote valves, or through an optional single lever, dual-valve control.

You'll save time on every job with these front-end loaders because the quick-attach system locks the loader on or drops it off in five minutes or less, allowing you to move on with your day's farm activities.
