Organizational Development Through Planned Change David A. Kolb, 2017-10-19 Excerpt from *Organizational Development Through Planned Change: A Development Model*. The last area is one of the most important issues in the contract negotiation process: power. Gaining the influence necessary to work effectively in the client system. There are four primary sources of this power: 1) the legitimately constituted authority of the system; 2) the president says one should do this;

expert power the prestige of a consultant or the compelling logic of a solution 3 coercive power and 4 trust based power the informal influence that flows from collaborative problem definition and solution While in most change projects power from all four of these sources is brought to bear in implementation of the change the power derived from collaborative problem definition is often especially critical to the success of those planned change efforts where the system's formal power structure and experts are seen to be the object and/or causes of the problem to be solved About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
