Dear Mr. Watson,

I was truly elated when my student project on cash flow improvement won the first prize in a local business club contest. Two months after that, my solution was implemented at a construction company where it cut change orders processing time by 20%.

I must admit it was no random win, though. I always had a strong desire to pursue a career as a leader in the finance function. As I believe the only way of reaching this goal is through adopting a results-oriented attitude reflected in initiative and accountability, I used my time at university to develop these. I also gained hands-on quantitative, analytical, and problem-solving skills by completing such courses as:

Statistical Inference in Management
Analytical Methods for Business
Business Communication

I would love to demonstrate to you that my 80% of 3.88 doesn't just show my commitment to learning but also reflects my inherent passion for finances and propensity to grow among like-minded people.

When Professor James Henry told me about an internship opportunity with TD Finance, I knew this was an unmissable occasion for further growth, surrounded by outstanding financial professionals.

[How to Write a Cover Letter](#) Theodore Kingsley,2023-06-26 **Nail the Cover Letter!** Ronald L. Krannich,2005 Job seekers often forget it's their cover letter not their resume that is first read by employers. Thus cover letters play a crucial role in making good first impressions on employers. This book shows how to produce powerful letters that lead to interviews and offers. Focusing on the key principles of effective communication, it examines the six most important letters every job seeker needs to write: cover approach, thank you, rejection, withdrawal, and acceptance. Dispelling numerous writing myths, the book includes several examples illustrating the writing principles as well as unique chapters on how to produce, distribute, and follow up letters with maximum impact. [Cover Letter Secrets](#) Marc Zelley,2018-05-17 In applying for a job, you need to know what a cover letter is so that you would be able to recognize its importance. The cover letter is actually the same as the letter of application, letter of introduction, as well as a transmittal letter. It is a letter that should always accompany the applicant's resume since not too many employers would consider an application without it. [How To Write Amazing Cover Letters](#) The Hyperink Team,2012-02-12 **ABOUT THE BOOK** If a resume is a window into your past work experience, a cover letter is the tool you use to install it. Cover letters were once just an afterthought, something most people used to simply regurgitate their resumes. In fact, it wasn't until the last decade that cover letters gained wide acceptance and importance. Today, not only is the cover letter just as important as a resume, it can be the deciding factor in whether a hiring manager looks at your resume or throws it in the trash. But how do you write the kind of amazing cover letter that will get you in the door? How can you create a narrative of your professional experience that makes the HR person sit up and take notice? The key is knowing how to present yourself. It does not matter if you've spent 30 years in the work force or are just entering it; the fact remains that you need to learn to how to convince someone else to interview you. **MEET THE AUTHOR** The Hyperink Team works hard to bring you high quality, engaging, fun content. If ever you have any questions about our products or suggestions for how we can make them better, please don't hesitate to contact us. Happy reading! **EXCERPT FROM THE BOOK** You've probably figured out a few mistakes to avoid already, but you'd probably be surprised at what many employers are turned off by when reading cover letters. Lack of proofreading: This is a no brainer, but many people often miss them or don't bother to spell check before sending out the cover letter and resume. It's always a good idea to ask a friend or family member to check your letter for spelling errors and typos to give you a fresh perspective. Not including the name of the hiring manager: If you don't know who is going to read your cover letter and resume, try to find out. When in doubt, call the company and ask who the person in charge of that department is so you can target your letter appropriately. Not writing to an audience: Focus each letter on each employer. According to CareerBuilder, 44 percent of executives polled said it's common for applicants to use their cover letters to show they've learned more about the job. Doing so can give you an edge against the competition. Failing to sell yourself: If you undersell your skills and qualifications, you won't make an impression on the reader. Don't just talk.
