AUUGN, 1989-08 *Passive Income: An Essential Guide to Creating Multiple Streams of Passive Income (The Secret to Freedom Flexibility and Financial Independence)* Marvin Ward, 101-01-01 What is passive income Passive income is earned with little to no ongoing work It s no get rich quick scheme but once your passive income exceeds your expenses you are set for life If you regularly feel the Sunday Scaries or always dread getting up for work in the morning this book is for you This book is for the college student already dreading the 9 5 life that waits him upon graduating the couple who would rather spend their time doing what they want instead of slaving away for their employers every day and the single parent who is barely scraping Passive Income includes Making a Passive Income from a small budget How to Begin with Different Strategies Ideas How to sell Physical Products Online Membership Sites Selling Instructional Products Join the thousands of people who have already found success with these strategies Passive Income Aggressive Retirement is the gift that keeps on giving Get it for yourself as a gift Complete beginner or not by the end of Passive Income you ll know exactly what it takes and how to get started Passive income is real and attainable for everyone even you Are you ready to join the movement Take the next step towards financial freedom clicking the Buy Now button at the top of the page **MCTS: Windows Server 2008 Applications Infrastructure Configuration Study Guide** Joel Stidley, 2012-05-14 This comprehensive guide offers 100 percent coverage of the exam s objectives real world scenarios hands on exercises and challenging review questions Prepares readers to configure terminal services Web Services infrastructure security for Web Services communication services and file and print services The newest set of Microsoft Certified Technology Specialist MCTS and Microsoft Certified Information Technology Professional MCITP certifications will include exams on Windows Server 2008 and this book is a must have for those who are looking to upgrade their certifications For Instructors Teaching supplements are available for this title *Reviewing Earth Science* Thomas McGuire, 2000 **Towards a neuroscience of social interaction** Ulrich Pfeiffer, Bert Timmermans, Kai Vokeley, Chris Frith, Leonhard Schilbach, The burgeoning field of social neuroscience has begun to illuminate the complex biological bases of human social cognitive abilities However in spite of being based on the premise of investigating the neural bases of interacting minds the majority of studies have focused on studying brains in isolation using paradigms that investigate offline social cognition i e social cognition from a detached observer s point of view asking study participants to read out the mental states of others without being engaged in interaction with them Consequently the neural correlates of real time social interaction have remained elusive and may paradoxically represent the dark matter of social neuroscience More recently a growing number of researchers have begun to study online social cognition i e social cognition from a participant s point of view based on the assumption that there is something fundamentally different when we are actively engaged with others in real time social interaction as compared to when we merely observe them Whereas for offline social cognition interaction and feedback are merely a way of gathering data about

the other person that feeds into processing algorithms inside the agent it has been proposed that in online social cognition the knowledge of the other at least in part resides in the interaction dynamics between the agents Furthermore being a participant in an ongoing interaction may entail a commitment toward being responsive created by important differences in the motivational foundations of online and offline social cognition In order to promote the development of the neuroscientific investigation of online social cognition this Frontiers Research Topic aims at bringing together contributions from researchers in social neuroscience and related fields whose work involves the study of at least two individuals and sometimes two brains rather than single individuals and brains responding to a social context Specifically this Research Topic will adopt an interdisciplinary perspective on what it is that separates online from offline social cognition and the putative differences in the recruitment of underlying processes and mechanisms Here an important focal point will be to address the various roles of social interaction in contributing to and at times constituting our awareness of other minds For this Research Topic we therefore solicit reviews original research articles opinion and method papers which address the investigation of social interaction and go beyond traditional concepts and ways of experimentation in doing so While focusing on work in the neurosciences this Research Topic also welcomes contributions in the form of behavioral studies psychophysiological investigations methodological innovations computational approaches developmental and patient studies By focusing on cutting edge research in social neuroscience and related fields this Frontiers Research Topic will create new insights concerning the neurobiology of social interaction and holds the promise of helping social neuroscience to really go social
