The AI Marketing Canvas Raj Venkatesan, Jim Lecinski, 2021-05-18 This book offers a direct actionable plan CMOs can use to map out initiatives that are properly sequenced and designed for success regardless of where their marketing organization is in the process. The authors pose the following critical questions to marketers 1. How should modern marketers be thinking about artificial intelligence and machine learning and 2. How should marketers be developing a strategy and plan to implement AI into their marketing toolkit. The opening chapters provide marketing leaders with an overview of what exactly AI is and how is it different than traditional computer science approaches. Venkatesan and Lecinski then propose a best practice five stage framework for implementing what they term the AI Marketing Canvas. Their approach is based on research and interviews they conducted with leading marketers and offers many tangible examples of what brands are doing at each stage of the AI Marketing Canvas. By way of guidance Venkatesan and Lecinski provide examples of brands including Google, Lyft, Ancestry.com, and Coca Cola that have successfully woven AI into their marketing strategies. The book concludes with a discussion of important implications for marketing leaders for your team and culture
