**Revised Edition** NIIR Board of Consultants and Engineers, 2016-10-01 The use of paints varnishes and enamels for  
decoration is nearly as old as human culture itself These are widely used in homes as well as in industry because painted  
surfaces are attractive and easy to keep clean Paint is generally made up of a pigment It is a chemical material which alters  
the color of reflected or transmitted light due to wavelength selective absorption Varnish is a transparent hard protective  
finish or film primarily used in wood finishing but also for other materials Varnish is traditionally a combination of a drying  
oil a resin and a thinner or solvent The technology of paints varnishes and enamels is changing rapidly and becoming more  
complex each day The paint industry is an important segment of the chemical industry Enamel paint is paint that air dries to  
a hard usually glossy finish used for coating surfaces that are outdoors or otherwise subject to wear or variations in  
temperature The Indian paint industry has seen a gradual shift in the preferences of people from the traditional whitewash to  
higher quality paints like emulsions and enamel paints with improvement in lifestyle India is the second largest consumer of  
paint in Asia Over the past few years the Indian paint market has substantially grown and caught the attention of many major  
players The market for paints in India is expected to grow at 1.5 times to 2 times GDP growth rate in the coming years In  
terms of volumes pigments demand is expected to reach 4.4 million tonnes Due to increased Government funding for

infrastructure demand for paints both in industrial and decorative segment is set to rise thereby rendering Indian paint industry to be poised for further growth This handbook is designed for use by everyone engaged in the paints pigments varnishes and enamels industry It provides all the information of the various formulae and processes of paints pigments varnishes and enamels The major content of the book are paint testing color in paint maintenance paints emulsion paints exterior or interior paints exterior or interior multicolor paints exterior swimming pool paints and enamels interior ceiling paints metal paints marine paints enamel paints interior fire retardant paints interior gloss paints paint formulation manufacture of natural copal varnishes floor paints and enamels varnishes lacquers and floor finishes white pigments colored pigments pigment dispersion etc The book contains addresses of plant machinery suppliers with their Photographs It will be a standard reference book for professionals entrepreneurs those studying and researching in this important area and others interested in the field of paints pigments varnishes and enamels technology TAGS Starting Paint Production Business How to Start Paint Manufacturing Industry Business Plan for Paint Industry How to Start Successful Manufacturing Business Paint Manufacturing Business Plan Paint Production Process Paint Business Plan Paint Production Paint Production Business Plan How to Start Paint Production Business Paint Manufacturing Planning in Paint Manufacturing Industry Process Plants for Paint Industry Paint Making Process Paint Manufacturing Process Process of Paint Production How to Manufacture Paint Paint Manufacturing Machines Resin Manufacture Resin Manufacturing Resin Manufacturing Plant Manufacturing Process of Resins How to Start Resin Manufacturing Business Resin Manufacturing Process Process of Making Resin Powder Coatings Manufacturing Powder Coatings Manufacture Manufacturing Process for Powder Coatings Powder Coating Manufacturing Process Powder Coating Production Equipment Powder Coating Plant Manufacture of Natural Copal Varnishes Method of Heating Manufacture of Black Varnishes Black Varnish Manufacture Manufacture of Spirit Varnishes Floor Paints and Enamels Interior Concrete Paints and Enamels Exterior White Enamels Exterior or Interior Enamels Varnishes Lacquers and Floor Finishes Furniture Rubbing Varnish Epoxy Amine Clear Coating White Pigment Evaluation Methods Colored Pigments Mill Base Formulation Plasticizers Oxygenated Solvents Wood Coatings Paint and Varnish Removers Solvent Paint and Varnish Removers Formulation of Varnish Removers Chemical Removers Non Chlorinated Solvent Paint Removers Removal of Epoxies Mechanism of Paint Removal Methods of Paint Removal Manufacturing Process of Paint Remover Paint Paint Removers Production How to Remove Paint With Chemical Powder Coating Paint Remover Paint Remover Industry Manufacture of Paint Removers Paint Removing Methods Methods for Testing Paints Color in Paint Maintenance Paints Emulsion Paints Exterior or Interior Paints Exterior or Interior White Multicolor Paint Exterior Swimming Pool Paints and Enamels Interior Flat White Ceiling Paint Interior Ceiling Paints Metal Paints Gray Automotive Enamel Aluminum Paint Maintenance Paints and Coatings Paint Formulation Paint Formulation and Process Paint Formulation Guide Laboratory Equipment Color Testing Color Formulation Emulsion Formation Formulation of Solvent Marine Paints Npcs Niir Process
