principal addresses on that occasion were Lattices and their applications by G Birkhoff On the application of structure theory to groups by O Ore and The representation of Boolean algebras by M H Stone The texts of these addresses and three others by R Baer H M MacNeille and K Menger appear in the Bulletin of the American Mathematical Society Volume 44 1938 In those days the theory of ordered sets and especially lattice theory was described as a vigorous and promising younger brother of group theory Some early workers hoped that lattice theoretic methods would lead to solutions of important problems in group theory   *Ars Combinatoria* ,1995   **A Transition to Advanced Mathematics** Douglas Smith,Maurice Eggen,Richard St. Andre,1997 Successfully addressing the frustration many students feel as they make the transition from beginning calculus to a more rigorous level of mathematics A Transition to Advanced Mathematics provides a firm foundation in the major ideas needed for continued work in the discipline The authors guide students to think and to express themselves mathematically to analyze a situation extract pertinent facts and draw appropriate conclusions With their proven approach Smith Eggen and St Andre introduce students to rigorous thinking about sets relations optional functions and cardinality and present introductions to modern algebra and analysis with sufficient depth to capture some of their spirit and characteristics Addressing the needs of different students A Transition to Advanced Mathematics includes exercises of varying difficulty for each section and provides worked out answers to selected problems With its straightforward style logical topic sequence exceptionally clear writing well chosen examples illustrations and historical notes this unparalleled text will improve mathematical fashion thereby giving your students a solid understanding of the material most useful for advanced courses 　　　　　　　　　　　　　　　　　　　　 　　　　　　 (Japan),1900   Recent Developments of General Topology and Its Applications Werner Gähler,Horst Herrlich,Gerhard Preuss,1992-10-23 This volume contains the main part of the lectures contributed to the conference They reflect the new trends of development in general topology   **Analele științifice ale Universității "Al.
