[Assessing Learners Online](#) Albert Oosterhof, Rita-Marie Conrad, Donald P. Ely, 2008 Online assessment and more broadly the entire online learning environment provides expanded opportunities to actively and creatively engage the learner. The approach the authors have taken in this book is to work from the established fundamentals of assessment applying these principles to the online environment. The authors emphasize basic issues of assessment such as establishing the evidence of validity for assessments but the context of the discussion is always that of an online environment. Written by leading technology experts this clear and practical text serves as a training guide for assessing online or distance learners. Readers learn how to select what should be assessed how to use written tests and projects to evaluate the skills learners have achieved how to provide feedback to learners and how to efficiently use course management software. The authors believe educators involved with online training and education must have the same assessment expectations and standards as those in conventional face to face environments. This book is appropriate for instructional designers and educators involved with online training and education as well as for college courses concerned with the design and delivery of distance or other forms of online instruction. It also has utility as a

It is designed to be practical, useful and informative for many different professionals who work with and are engaged in professional development and implementation with children and their families.

### **Integrating the National Science Education Standards Into Classroom Practice**

Kenneth P. King, 2007. Written by an experienced science teacher and science teacher educator, this brief volume helps bridge the gap between theory and practice. It offers readers a tool to understand not only what the National Science Education Standards (NSES) are but also how they can enrich science teaching and learning to promote scientific literacy for all. In addition to offering clear descriptions of each of the six standards, *Integrating the National Science Education Standards into Classroom Practice* also provides sample activities drawn from contemporary classrooms demonstrating the spirit of the NSES in practice (see pages 14, 15, 17, 18 and 37-39). Includes artifacts from K-12 classrooms drawn from the author's experience as a public school teacher to illustrate teaching program development and curricular practices consistent with the goals of the NSES (see pages 39, 40, 44, 46 and 50). Presents examples of curriculum content and delivery, performance-based assessment and models for staff development in line with the NSES (see pages 64, 93 and 102). Illustrates best practices through end-of-chapter vignettes based on real life teaching experiences to emphasize the effectiveness of the NSES (see pages 52, 53, 136, 137 and 141-142).
