Anatomy & Physiology Frederic H. Martini, Frederic Martini, 2005 *Anatomy & Physiology* Elaine Nicpon Marieb, 2002 KEY MESSAGE Anatomy Physiology Third Edition answers the demand for a leaner version of Elaine Marieb and Katja Hoehn's Human Anatomy Physiology with less in depth coverage of pregnancy, heredity and the developmental aspects of various body systems while keeping basic themes such as homeostatic imbalances strategically in place. This revised edition includes major updates to the content and figures based on current research findings. Organization of the Body: The Human Body An Orientation, Chemistry Comes Alive, Cells The Living Units, Tissues The Living Fabric. For all readers interested in Human Anatomy Physiology **Human Anatomy & Physiology** Elaine Nicpon Marieb, Katja Hoehn, 2010. With the Eighth Edition of the top selling Human Anatomy Physiology with MyA P text, trusted authors Elaine N. Marieb and Katja Hoehn have produced the most accessible, comprehensive, up-to-date and visually stunning anatomy physiology textbook on the market. Marieb draws on her career as an A P professor and her experience as a part time nursing student while Hoehn relies on her medical education and classroom experience to explain concepts and processes in a meaningful and memorable way. The most significant revision to date, the Eighth Edition, makes it easier for you to learn key concepts in A P. The new edition features a whole new art program that is not only more visually dynamic and vibrant than in previous editions but is also much more pedagogically effective for today's students, including new Focus figures which guide you through the toughest concepts in A P. The text has been edited to make it easier than ever to study from and navigate with integrated objectives, new concept check questions and a new design program. ACCCN's Critical Care Nursing - E-Book Leanne Aitken, Andrea Marshall, Wendy Chaboyer, 2011-11-21 A revised new edition of this comprehensive critical care nursing text developed with the Australian College of Critical Care Nurses ACCCN. This second edition of ACCCN's Critical Care Nursing has been fully revised and updated for critical care nurses and students in Australia and New Zealand. As well as featuring the most recent critical care research data, current clinical practice policies, procedures and guidelines specific to Australia and New Zealand, this new edition offers new and expanded chapters and case studies. The ultimate guide for critical care nurses and nursing students alike, ACCCN's Critical Care Nursing 2e has been developed in conjunction with the Australian College of Critical Care Nurses ACCCN. As with the first edition, the text in ACCCN's Critical Care Nursing 2e reflects the expertise of ACCCN's highly qualified team of local and international critical care nursing academics and clinicians. This authoritative nursing resource takes a patient centred approach, encouraging practising critical care nurses and students to develop effective, high quality critical care nursing practice. ACCCN's Critical Care Nursing 2e outlines the scope of critical care nursing before detailing the core components and specialty aspects of critical care nursing, such as intensive care, emergency nursing, cardiac nursing, neuroscience nursing and acute care. Specific clinical conditions such as emergency presentations, trauma, resuscitation and organ donation are featured to explore some of the more complex or unique aspects of specialty critical care nursing practice. Expanded chapters for cardiovascular, respiratory and neurological content, new chapters on Quality and Safety, Recovery and Rehabilitation, Psychological care and Obstetric emergencies, new case studies, elaborate on relevant care issues, critiques of recent research publications, explore related topics, practice tips highlight areas of care particularly relevant to daily clinical practice, learning activities support knowledge, reflective learning and understanding.

Clinical Skills in Child Health Practice E-Book Janet Kelsey, Gillian McEwing, 2008-04-25. This title is directed primarily towards health care professionals outside of the United States. It is a textbook of clinical skills that offers an excellent resource for all professionals providing care for children and young people. It presents a detailed step by step approach to clinical skills that may be used in both hospital and community settings. Each skill is presented with the evidence base required to ensure up to date safe practice. Chapters provide rationale for each step of the skill and are enhanced by diagrams and photographs to give the practitioner clear guidance and the confidence to perform unfamiliar skills. The accompanying PowerPoint presentations are a resource for both lecturers teaching clinical skills and individual students who are either encountering a skill for the first time or want to update their knowledge. A step by step guide to the fundamental skills required for child health care which gives clear guidance to help master the skills. Incorporates the latest clinical guidelines to ensure the most up to date information is used, enabling safe effective practice. Problem based scenarios provide the opportunity to confirm knowledge and understanding of the skill. Extensive PowerPoint presentations can be used for teaching or personal guided study in the classroom or skills laboratory. Colour photos and video clips on the Evolve website present clear guidance on how to perform the skill.
