Education, Aspiration and Social Mobility Peggy Froerer, 2025-12-01 Informed by over two decades of anthropological research in Chhattisgarh *Education Aspiration and Social Mobility* brings ethnographic nuance to the contradictory ways in which education represents both a strategy for social mobility and a very tangible risk whose transformative potential is not as straightforward as proponents suggest This book examines the relationship between education aspiration and social mobility amongst marginalized Adivasi tribal youth in rural India and how young people navigate the tensions and uncertainty that emanate from this contradiction fashioning their own meanings and understandings of education against a backdrop of structural constraints and a future in flux *Endless Siege* Krzysztof Iwanek, 2022-05-13 This is an ethnographic study of the Vidya Bharati chain of schools in India which are run by a Hindu nationalist organization called the Rashtriya Swayamsevak Sangh RSS The first study of its kind this volume is an important narrative on the role and impact of textbooks in modern India Despite having limited resources they are run on a tight budget and being based on a radical ideology that derives from a Hindu nationalist agenda the Vidya Bharati schools have achieved considerable success in the free market of private education and have grown to over 12 000 schools within 40 years They are an important example of the interlinkage between ideology and nationalism in contemporary India The author analyses school structure curriculum teaching quality institutional goals and ideology in an effort to identify reasons behind Vidya Bharati's success and to show through his field research that a combined strategy of pragmatism blended with ideology has allowed the schools to become highly sought after This analysis then asks broader questions about the failures of the public education system in India
