Clash Nirmalya Kumar, 2024-03-15 Amazon and Walmart with more than half a trillion in revenues annually are the two largest companies in the world. They have not only redefined the retail industry. Walmart in the 1980s 1990s and Amazon since 2000 but have also been the benchmark for business best practices e.g. the use of IT supply chain data analytics customer orientation. This year it is anticipated that Amazon will dethrone Walmart as the world's largest company a position that Walmart has occupied for more than two decades. By examining these two companies and their business models in depth Professor Nirmalya Kumar elucidates on the more general phenomenon of incumbents competing with disruptors e.g. Volkswagen vs Tesla Marriott vs Airbnb as well as the move to omnichannel retail where physical stores must coexist with online retailers.

Japan's Island Troubles with China and Korea Victor Teo, Haruko Satoh, 2018-11-01 This book examines the Senkaku Diaoyu dispute between Japan and China and the Dokdo Takeshima dispute between Japan and Korea in order to offer new perspectives on the possible approaches towards amelioration and resolution of these conflicts. Japan's Island Troubles with China and Korea addresses the prospects of and challenges to achieving resolutions in the island disputes rather than focusing solely on the origins and the political roles they play in the domestic politics of the three nations. Furthermore in taking an interdisciplinary approach this book transcends existing studies which focus on the domestic contexts of the disputes and therefore avoids the pitfalls of nationalistic narratives. Instead this book fills a theoretical and methodological lacuna in the academic literature exploring how the islands could become a point of co-operation rather than contention. Providing a fresh examination of Japan's relations with its two closest neighbours this book will be invaluable to students and scholars of Asian politics and international relations security studies.
