IPSAS Topics covered include international taxation from both the micro and macroeconomic level, international investment, monetary economics, risk management, management accounting, auditing, investment capital, corporate finance and banking among others. The global business environment shapes the international financial flows of finance and the demand for international harmonization of accounting. As such the field of global finance and accounting has encountered some new challenges. For example, policy makers and regulators are forced to restructure their tools to tackle with new features of trading at global capital markets and international investment. This book complements this global view of development with country specific studies focusing on emerging and transitioning economies which are affected indirectly and in unforeseen ways.
