## **Metro Police Form For 2015:**

*Fighting at the Legal Boundaries* Kenneth Watkin, 2016 Fighting at the Legal Boundaries offers a holistic approach towards the application of the various constitutive parts of international law. The author focuses on the interaction between the applicable bodies of law by exploring whether their boundaries are improperly drawn or are being interpreted in too rigid a fashion. Emphasis is placed on the disconnect that can occur between theory and practice regarding how these legal regimes are applied and interact with one another. Through a number of case studies, Fighting at the Legal Boundaries explores how the threat posed by insurgents, terrorists, and transnational criminal gangs often occurs not only at the point where these bodies of law interact but also in situations where there is significant overlap. In this regard, the exercise of the longstanding right of States to defend nationals including the conduct of operations such as hostage rescue can involve the application of human rights based law enforcement norms to counter threats transcending the conflict spectrum.

*Policing Rape* Katrin Hohl, Elizabeth A. Stanko, 2024-07-05 The policing of rape is in permacrisis. This book addresses the question of why police investigations continue to fail most rape victim survivors and puts forward a framework for what policing can do to change this. Low conviction rates and poor victim survivor experiences are the hallmarks of the rape justice gap. Three decades of research, policy, and legal changes have tweaked rape investigations to alleviate some of their ills; however, for the majority of victim survivors, the process remains gruelling. Police forces are notoriously resistant to reform, even in the face of rapidly declining public trust. The starting point of this book is the recognition that if we want profound change in policing, we must try something new. To do so, the authors move from asking 'What is it about rape that makes it so difficult for police to investigate it well?' to asking 'What is it about the police that makes it so difficult for police to investigate rape well?'. Policing Rape sets out a practice oriented theoretical framework for radically and sustainably transforming rape investigations, rape prevention, and the quality of officer engagement with victim survivors. The authors reflect on the journey of putting this framework into practice within Operation Soteria Bluestone as a step on the path towards a radical transformation of rape policing. This book is essential reading for all those looking to understand and improve the policing of rape.

Ho, Shujun Li, 2016-05-20 Digital forensics and multimedia forensics are rapidly growing disciplines whereby electronic information is extracted and interpreted for use in a court of law. This book focuses on the interface between digital forensics and multimedia forensics, bringing two closely related fields of forensic expertise together to identify and understand the current state of the art in digital forensic

investigation Both fields are expertly attended to by contributions from researchers and forensic practitioners specializing in diverse topics such as forensic authentication forensic triage forensic photogrammetry biometric forensics multimedia device identification and image forgery detection among many others Key features Brings digital and multimedia forensics together with contributions from academia law enforcement and the digital forensics industry for extensive coverage of all the major aspects of digital forensics of multimedia data and devices Provides comprehensive and authoritative coverage of digital forensics of multimedia data and devices Offers not only explanations of techniques but also real world and simulated case studies to illustrate how digital and multimedia forensics techniques work Includes a companion website hosting continually updated supplementary materials ranging from extended and updated coverage of standards to best practice guides test datasets and more case studies

**Tough on Crime** Michelle Bonner,2019-09-06 Crime and insecurity are top public policy concerns in Latin America Political leaders offer tough on crime solutions that include increased policing and punishments and decreased civilian oversight These solutions while apparently supported by public opinion sit in opposition to both criminological research on crime control and human rights commitments Moreover many political and civil society actors disagree with such rhetoric and policies In Tough on Crime Bonner explores why some voices and some constructions of public opinion come to dominate public debate Drawing on a comparative analysis of Argentina and Chile based on over 190 in depth interviews and engaging the Euro American literature on punitive populism this book argues that a neoliberal media system and the resulting everyday practices used by journalists state and civil actors are central to explaining the dominance of tough on crime discourse
