Billiken was the world's longest running children's magazine publishing 5144 issues over one hundred years. It educated and
entertained generations of schoolchildren and came to occupy a central role in Argentine cultural life. This volume offers the
first academic history of the whole lifespan of Billiken as a print magazine through to its transition into a digital brand. As an
editorial project founded at the time of the massification of print culture, Billiken was in the business of creating future
citizens. From its transnational and literary beginnings, Billiken quickly became organised around the school year, offering
valuable extra-curricular material aligned to the patriotic drivers of state schooling. Billiken told the story of the Argentine
nation cyclically and repeatedly, gaining such momentum that it became part of the nation's story itself. This volume adopts a
multi-disciplinary approach to take account of the many different facets of Billiken's content, born from a combination of
ideological, commercial, political and cultural drivers. This history of Billiken examines the changes, contradictions and
continuities in the magazine over time as it responded to political events, adapted to new commercial realities and made use
of technological advances. It explores how Billiken magazine not only reflected society but shaped it through its influence on
children's culture and education and provides an alternative window onto the history and politics of a tumultuous

examines the grammatical, exegetical, philosophical and mystical interpretations of the Bible that took place in Spain during

the medieval period The Bible was the foundation of Jewish culture in medieval Spain Following the scientific analysis of Hebrew grammar which emerged in al Andalus in the ninth and tenth centuries biblical exegesis broke free of homiletic interpretation and explored the text on grammatical and contextual terms While some of the earliest commentary was in Arabic scholars began using Hebrew more regularly during this period The first complete biblical commentaries in Hebrew were written by Abraham Ibn Ezra and this set the standard for the generations that followed This book analyses the approach and unique contributions of these commentaries moving on to those of later Christian Spain including the Qimhi family Nahmanides and his followers and the esoteric mystical tradition Major topics in the commentaries are compared and contrasted Thus a unified picture of the whole fabric of Hebrew commentary in medieval Spain emerges In addition the book describes the many Spanish Jewish biblical manuscripts that have remained and details the history of printed editions and Spanish translations for Jews and Christians by medieval Spanish Jews This book will appeal to scholars and students of medieval Spain as well as those interested in the history of religion and cultural history
