**The Parenting Reset** Sam Choo, What happened to today's kids and why does parenting feel harder than ever? If you've ever wondered why your child talks back, ignores instructions, melts down over small things, refuses chores, or seems glued permanently to a screen, this book will finally make everything click. The Parenting Reset is the modern Asian parent's guide to raising respectful, responsible, resilient children in a world overflowing with distraction, entitlement, pressure, and digital noise. Written in simple conversational English with humor and honesty, Sam Choo offers a refreshingly realistic roadmap for stressed-out parents who feel like they've tried everything and nothing is working. This is not another parenting theory book. This is a practical reset that transforms daily habits, communication patterns, home culture, and the parent-child relationship. Inside this life-changing guide, you will learn: Why today's kids behave so differently and what's actually going on in their brains; Understand the hidden forces shaping your child's attitude, attention span, moods, and motivation; The exact habits that accidentally create disrespect and entitlement; And how to reverse them with small, consistent changes; The Reset Ritual that strengthens respect, gratitude, and family bonding, starting at the dinner table; A simple practice that can transform your home in one week; How to discipline without shouting, threatening, or punishing; Finally stop the daily battles and get cooperation through calm authority; Why letting children make mistakes is the fastest path to confidence and resilience; Discover the Let Them Fall Rule and why it works better than lectures; The truth about screens, TikTok, gaming, and dopamine; Plus a digital reset plan that works without screaming matches; How to talk so your child actually listens; Conversation scripts and communication resets that reduce rebellion instantly; How to build a child who can stand on their own as an adult; Character, money sense, respect, emotional strength: Everything schools don't teach; If you want a child who respects elders without being forced, a home without shouting, a teenager who helps instead of argues, a family that feels connected, not distant: a parenting approach that actually works in today's world, then this book will give you the tools to reset everything starting today. A New Kind of Parenting Book. Warm, Witty, Honest, Practical, Not judgmental, Not academic. Just real advice that works in real Asian homes. It's never too late to reset. Your relationship with your child can still grow stronger, calmer, and more respectful, starting with one small change at a time. If you're ready to raise a child who can stand strong in a complicated world, scroll up and get your copy now.

were alcoholics Sorry to cast such a negative dispersion on parenting but that s how modern society tends to view it Long story short after about three decades of having sex I ended up with a son that s definitely mine and a grown daughter whose mother has told me on several occasions she may not actually be my daughter I think I m a pretty good father considering I didn t have much to go on If you still have got half a brain that hasn t been overrun with fluoride poisoning you re probably beginning to get a little nervous Soon you too will be asking yourself the same question I ask myself each and every day How the hell am I supposed to raise a child in this environment No worries because Olivia Black has it all figured out She s one of the brightest people I know If anyone can guide you through raising a perfect child it s Olivia So sit back and throw back a cold one you re going to need it and join her on this wildlife adventure called parenthood You re stuck now so you may as well make the most of it It s fun It s confusing It s thankless It s rewarding It sucks It s wonderful It s punitive It s cognizant It s ridiculous Parenting is a bunch of things The one thing it ain t is reversible
