nineteenth centuries where they were used to justify differences over which border conflicts were fought. Later the idea of a common European heritage provided a rationale for the development of the European Union. Now the emergence of new populist nationalisms shows how the imagined past continues to play a role in cultural and social governance while a series of interlinked social and ecological crises are changing the ways that heritage operates with new discourses and ontologies emerging to reconfigure heritage for the circumstances of the present and the uncertainties of the future. Taking the current role of heritage in Europe as its starting point, *Critical Heritage Studies and the Futures of Europe* presents a number of case studies that explore key themes in this transformation. Contributors draw on a range of disciplinary perspectives to consider variously the role of heritage and museums in the migration and climate emergencies approaches to urban heritage conservation and practices of curating cities digital and digitised heritage the use of heritage as a therapeutic resource and critical approaches to heritage and its management. Taken together the chapters explore the multiple ontologies through which cultural and natural heritage have and continue to intervene actively in redrawing the futures of Europe and the world. Praise for *Critical Heritage Studies and the Futures of Europe* Filled with many fascinating and diverse chapters this book vividly demonstrates the dynamism and breadth of critical heritage study of in and entangled with Europe today. Sharon Macdonald, Alexander von Humboldt Professor of Social Anthropology and Director of the Centre for Anthropological Research on Museums and Heritage, CARMAH in the Institute of European Ethnology at Humboldt University in Berlin. Far from being restrictive let alone chauvinistic the multiscale European focus of this book confirms the breadth and relevance of current critical heritage studies. With contributions addressing such topical issues as climate emergencies urban landscapes cultural industries new media and identity politics be they written by established scholars or by emerging researchers it is Europe with all its shared grounds and recurrent divergences that comes into sharper relief. From this vantage point readers of this compelling book will be better positioned for reflecting on and eventually influencing and challenging our heritage futures. Nathan Schlanger, Professor of Archaeology, cole nationale des chartes, Paris. This book addresses European heritage realities and futures through new voices, paradigms and methods. It is a collage of tensions practically a representation of Europe itself through which to comprehend contemporary intersections of time, place, things and meaning. It contributes to new vistas in heritage studies the offer of design and imagination as methods reckonings with data and climate change as seemingly uncontrollable actors and the ongoing negotiation of criticality in the making of our responsibilities for the past in the present. Christopher Whitehead, Professor of Museology, Newcastle University.

Land Squandering and Social Crisis in the Spanish City Jesús Manuel González Pérez, Francisco Cebrián-Abellán, María José Piñeira-Mantiñán, 2019-06-20. The last two decades have been marked by intense and accelerated economic, political and cultural processes that have affected urban spaces. These changes have occurred in different parts of cities: traditional centers, edges, peripheries and at different levels of the urban system: large and medium sized cities and in their respective

areas of influence Possibly the clearest expression of the spatial effects on cities can be perceived in their morphological transformations their territorial dimensions or in their social problems Until 2008 urban territorial processes were a reflection of the logic and inconsistencies of an expansive economic context and of a structural context that favored the development of cities through concurrent processes and actors As a result the built land and amount of urbanized and built surfaces increased together with processes of the expansion and modernization of cities Since 2008 the expansive economic cycle has ended and there have been diverse negative consequences Notably the construction sector has come to an abrupt halt Access to credit has also been reduced and unemployment has increased The economic recession has caused sociodemographic and socioeconomic issues exemplified by housing vulnerability with dispossession evictions a shortage of social housing and energy poverty

Friis, 2021-11-12 *White Light* The Poetry of Alberto Blanco examines the interplay of complementary images and concepts in the award winning Mexican writer's cycle of poems from 1979 to 2018 Blanco's poetic trilogy *A la luz de siempre* is characterized by its broad range of form and subject and by the poet's own eclectic background as a chemist maker of collages and musician Blanco speaks the language of the visual arts science mathematics music and philosophy and creates work with deep interdisciplinary roots This book explores how polarities such as space and place reading and writing sound and silence visual and verbal representation and faith and doubt are woven through *A la luz de siempre* These complements reveal how Blanco's poetry like the phenomenon of white light embraces paradox and transforms into something more than the sum of its disparate and polychromatic parts

Evita frente al espejo Marcelo Marino,2022-12-01 Eva Perón una de las personalidades más fascinantes de la historia argentina también es un cono en la historia de la moda El estilo de Evita es inconfundible y se fue desarrollando en cada una de las etapas de su corta pero intensa vida artística y política Explorar el vínculo entre Eva y la moda es entender una parte fundamental de la construcción de su mito En sus diversos capítulos Evita frente al espejo repasa los vínculos con el diseñador Paco Jaumandreu la extraordinaria gira por Europa de 1947 y la fortuna de la colección de trajes populares españoles que le fueron obsequiados en esa ocasión Eva estuvo en el centro del surgimiento y de la expansión de la alta costura luego de la Segunda Guerra Mundial y fue cliente especial de diseñadores como Christian Dior Jacques Fath o el zapatero Salvatore Ferragamo Esta vinculación con el lujo las ropas las joyas y los accesorios ha sido vista por sus detractores como una contradicción frente a su discurso y acción social pero en escasas ocasiones se la ha valorado en el contexto del sistema de la moda del momento Eva y su entorno hicieron un notable uso político y comunicacional de la moda Este volumen transita también la complejidad de las relaciones entre la apariencia el discurso peronista y la figura del descamisado junto con la construcción de la imagen pública de Eva
