Paula Deen Diabetic Cookbook:

Unpalatable Carrie Helms Tippen, 2025-01-15 The cookbook genre is highly conventional with an orientation toward celebration and success From glossy photographs to heartwarming stories and adjective rich ingredient lists the cookbook tradition primes readers for pleasure Yet the overarching narrative of the region is often one of pain loss privation exploitation poverty and suffering of various kinds While some cookbook writers go to great lengths to avoid reminding readers of this painful past others invoke that pain as a marker of southern authenticity Still others use stories of southern suffering as an opportunity to make space for reconciliation reparation or apology for past wrongs In *Unpalatable Stories of Pain and Pleasure in Southern Cookbooks* author Carrie Helms Tippen attempts to understand the unique rhetorical situation of the southern cookbook as it negotiates a tension between the expectations of the genre and the prevailing metanarratives of the southern experience one focused on pleasure and the other rooted in pain Through an analysis of commercially published southern cookbooks from the 1990s to the present Tippen examines the range of rhetorical purposes and strategies writers have employed some of which undermine the reality of a painful past and cause harm or violence and others which serve as tools for truth and reconciliation

The Food Network Recipe Emily L. Newman, Emily Witsell, 2021-04-06 When the Television Food Network launched in 1993 its programming was conceived as educational it would teach people how to cook well with side trips into the economics of food and healthy living Today however the network is primarily known for splashy celebrity chefs and spirited competition shows These new essays explore how the Food Network came to be known for consistently providing comforting programming that offers an escape from reality where the storyline is just as important as the food that is being created It dissects some of the biggest personalities that emerged from the Food Network itself such as Guy Fieri and offers a critical examination of a variety of chefs feminisms and the complicated nature of success Some writers posit that the Food Network is creating an engaging important dialogue about modes of instruction and education and others analyze how the Food Network presents locality and place through the sharing of food culture with the viewing public This book will bring together these threads as it explores the rise development and unique adaptability of the Food Network
